FISCAL SERVICES

June 29, 2016

Citizens of Franklin County, Ohio:

As Auditor of Franklin County, Ohio, (the County), I am pleased to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2015. This CAFR conforms to generally accepted accounting principles (GAAP) as applicable to local government entities. The report has been filed with the Auditor of State pursuant to Ohio Revised Code (ORC) Section 117.38. Responsibility for the accuracy of the data and the completeness and fairness of the presentation rests with the County's management. We believe the data is accurate in all material respects and fairly reflects the County's financial position and the results of its operations. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

In implementing the County's integrated, automated accounting system, consideration was given to incorporating sound internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability and accuracy of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of the controls should not outweigh their benefits. The accounting system encompasses appropriations, encumbrances, expenditures, revenues, payroll and capital assets and ensures the financial information generated is both accurate and reliable.

In County government, internal controls are enhanced through the separation of powers. The Commissioners, the Auditor and the Treasurer share the management and administration of the County's financial resources, providing an inherent system of checks and balances. Each of the County's elected officials and agency directors is responsible for internal controls over the cash collection function within their office. Some County offices and agencies hold money in bank accounts outside the County treasury. The individual offices and agencies are responsible for the transaction activity through and reconciliation of those accounts.

Uniform Guidance requires an independent audit to be conducted annually. The audit, which includes procedures to fulfill federal Single Audit requirements, serves to maintain and strengthen the integrity of the County's accounting and budgetary controls. Included in this CAFR is the report of Dave Yost, Auditor of State. The State Auditor has issued an unmodified ("clean") opinion on the County's financial statements for the year ended December 31, 2015. The Single Audit, which meets the *Uniform Guidance* requirements is published under separate cover and can be obtained by sending a written request to the Franklin County Auditor, Fiscal Services Division, 373 South High Street, 21st Floor, Columbus, Ohio 43215-6310.

Management's Discussion and Analysis (MD&A) provides a narrative introduction, overview and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A begins on page 5, immediately following the Independent Auditor's Report.

Letter of Transmittal For the Year Ended December 31, 2015

Each year we also publish the Franklin County Popular Annual Financial Report (PAFR) that provides significant financial information in a reader-friendly format. Unlike this CAFR, the PAFR does not conform to GAAP and should be used as a supplement to, not in place of, the CAFR. Both the CAFR and the PAFR can be accessed through the Internet on our web site at http://www.FranklinCountyAuditor.com.

Profile of Franklin County Government

Formed in 1803, Franklin County is a political subdivision of the State of Ohio and has only those powers conferred upon it by state law. The following offices respectively hold the primary responsibility for budgeting, accounting and cash management in Franklin County. Each officeholder is elected to a four-year term.

The three-member Board of Commissioners (the Commissioners) serves as the taxing authority, the contracting body and the chief administrator of public services. The Commissioners adopt and oversee the annual operating budget, approve expenditures and issue debt.

As the County's chief fiscal officer, the Auditor is responsible for maintaining accurate records of all money received by or paid out of the County treasury. As the tax assessor for all political subdivisions within the County, the Auditor is responsible for computing the taxing rates for real estate and manufactured homes as determined by proper taxing authorities and popular vote.

As the County's banker, the Treasurer serves as custodian and investment officer for County funds. The Treasurer collects real estate and manufactured homes taxes.

The financial statements contained within this CAFR include all funds, agencies, boards and commissions that are not legally separate and for which Franklin County (the primary government and reporting entity) is financially accountable. The County provides many services to its citizens including tax collection and distribution, civil and criminal justice systems, public safety, health assistance, human services, and road and bridge maintenance. The County also operates two public parking garages and several water supply and sewage treatment systems. The County does not operate schools or hospitals, nor is it responsible for refuse collection or fire safety services.

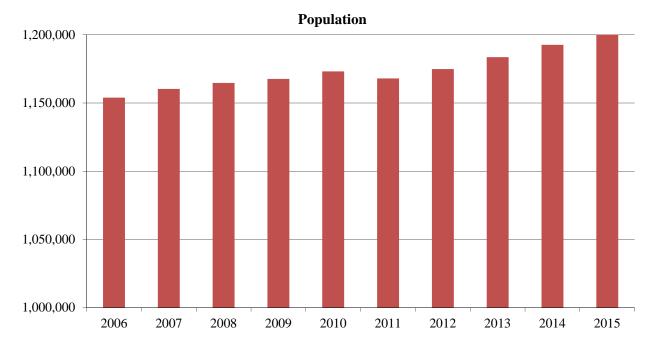

Organizations that are legally separate from the County are included as component units if the County's elected officials appoint a voting majority of the organization's governing body and (1) the County has the ability to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County. The following entities are included in the financial statements as component units: ARC Industries, Veterans Memorial Hall and Stadium and Team. A complete discussion of the reporting entity is provided in Note 1 to the basic financial statements.

Letter of Transmittal For the Year Ended December 31, 2015

Note 19 to the basic financial statements presents information about joint ventures with the City of Columbus, including the Columbus/Franklin County Affordable Housing Trust Corporation, the Franklin Park Conservatory Joint Recreation District and the Columbus-Franklin County Finance Port Authority. Other related organizations are discussed in Note 20, including Housing of City Prisoners, the Central Ohio Workforce Investment Corporation, the Columbus Metropolitan Library, the Columbus Metropolitan Housing Authority, the Columbus and Franklin County Metropolitan Park District, the Franklin County Family and Children First Council, the Franklin County Convention Facilities Authority, the Central Ohio Community Improvement Corporation, and Friends of the Shelter.

Economic Condition and Outlook

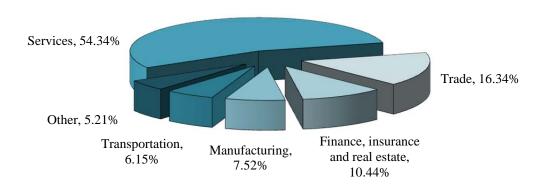

The County is located in central Ohio, within 500 miles of half the nation's population. The Mid-Ohio Regional Planning Commission has estimated the County's population to be 1,202,423 at December 31, 2015, an increase of 0.8 percent for the year and an increase of 4.2 percent in the last ten years. Columbus, the largest city in the County, serves as the state capital and the county seat, and is home to The Ohio State University. The County encompasses 16 cities, 17 townships and 10 villages.

Local Economy Central Ohio is among the more economically stable metropolitan areas in the United States. The area has shown resiliency during recessions. The economy is broad-based, with no single industry dominating it. Nationwide Insurance and Limited Brands have located their headquarters and home offices in Franklin County. Other large employers include JPMorgan Chase, Ohio Health, Nationwide Mutual Insurance Company, and the Kroger Company. The chart below shows the proportionate number of employees in the various industries (excluding government), as reported by the U.S. Census Bureau, County Business Patterns for 2014.

Letter of Transmittal For the Year Ended December 31, 2015

Business Sectors

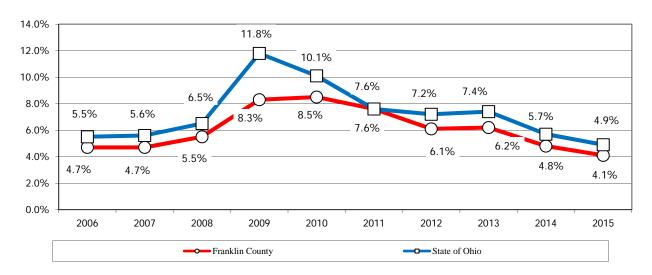

Government and education are also major employers. Together, the State of Ohio, City of Columbus and Franklin County employ 38,453 people. An additional 37,451 people are employed by either The Ohio State University or Columbus Public Schools.

The diversity of business sectors helps the region weather the economic fluctuations experienced on a larger scale elsewhere. The County's average unemployment rate decreased from 4.8 percent in 2014 to 4.1 percent in 2015. The County's unemployment rate is lower than the state average, which is 4.9 percent, and the national average of 5.3 percent.

A factor contributing to the lower unemployment rate is the County's well-educated workforce. Based on 2014 educational attainment data published by the U. S. Census Bureau, 89.8 percent of County residents ages 25 and older have graduated from high school, and 36.7 percent have completed four or more years of college.

Unemployment Rates

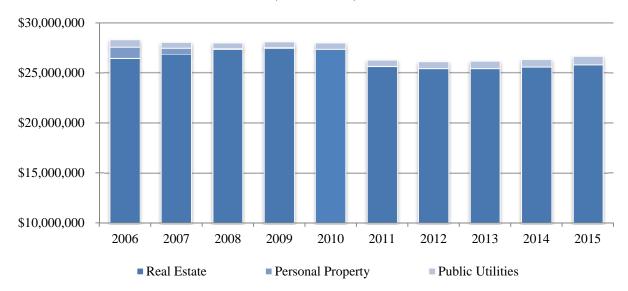

Letter of Transmittal For the Year Ended December 31, 2015

During 2015, a sales tax of 7.50 percent was collected by the State of Ohio on sales made in Franklin County. The tax was split as follows: 5.75 percent for the State of Ohio; 1.25 percent for the County's General Fund; and 0.50 percent for the Central Ohio Transit Authority. The County receives no direct funding through income taxes.

Property taxes are a significant revenue source for the General Fund and these County agencies: Board of Developmental Disabilities, Children Services Board, the Alcohol, Drug and Mental Health Board and the Office on Aging.

The total value of new construction was \$832 million in 2015, with \$273 million in residential/agricultural and \$559 million in commercial/industrial construction. In comparison, 2014 total new construction was \$662 million. Overall, real property continues to hold its value. The appraisal cycle is six years, with an update performed at the mid-point. The reappraisal performed in 2011 resulted in a decline in real property tax values. Additional information can be found in Note 6 to the basic financial statements and in the statistical tables.

Assessed Value of Taxable Property (000's omitted)

Letter of Transmittal For the Year Ended December 31, 2015

Financial Policies The budget must be structurally balanced so that continuing revenues support continuing expenditures. One-time surpluses may not be used to expand continuing expenditures. Rather, they may be used for one-time expenditures, such as capital projects. County agencies are encouraged to maximize the use of state and federal revenues so as to help preserve general revenues for other needs.

Budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Department and agency budget requests are submitted in a program-based format in conjunction with strategic business plans that outline each program's performance goals for the following year. Actual performance data related to the demands, outputs, results and efficiencies of each program are part of the budget presentation. Some special revenue funds are required to maintain a balance necessary to cover operational needs for the first several pay periods of the following year in the event that a revenue stream is delayed. Agencies funded through tax levies are required to show that the expenditures forecast over the life of the levy do not exceed the estimated revenue collections.

The budget may be amended or supplemented at any time during the year upon formal action of the Commissioners. Transfers of cash between funds require the Commissioners' authorization. Appropriations lapse at the end of the year. The Commissioners adopted the County's 2015 operating budget on December 16, 2014. Additional information on the County's budgetary process can be found in Note 3 to the basic financial statements.

ORC § 5705.13 and ORC § 5705.29 permit the taxing authority of a political subdivision to establish reserve balance accounts and to estimate contingent expenses. In accordance with actions taken by the Commissioners, the following set-asides are in place:

- General Fund Contingency up to three percent of the General Fund budget or one-sixth of the previous year's General Fund expenditures may be set aside for unanticipated critical needs. In 2015, \$3.0 million was set aside for this purpose.
- Economic Stabilization five percent of the preceding year's General Fund revenue may be reserved to stabilize the budget against cyclical changes in revenue and expenditures. This account had a balance of \$30.0 million as of December 31, 2015, and is shown as unassigned within the General Fund
- Risk Management funds may be reserved for self-insurance. Liability claims arising from automobile accidents, litigation settlements and judgment awards are paid from agency budgets or from the amount designated for risk management within the General Fund. The actual claims paid during 2015 totaled \$332,000. As of December 31, 2015, \$262,000 was recorded as payable related to known claims, and \$1.3 million is shown as committed in the General Fund for unasserted claims.

Letter of Transmittal For the Year Ended December 31, 2015

- Workers' Compensation funds may be reserved for the payment of claims under a self-insured program or a retrospective ratings plan for workers' compensation. As of December 31, 2015, the County has \$6.3 million recorded as committed in the General Fund for these future claims.
- 27th Pay Period established in 1995, this reserve gradually collects the funds necessary to meet the payroll requirements of a 27th pay period for General Fund employees which occurred in 2009. The next year with twenty-seven pay days will be 2020. The balance at December 31, 2015, was \$3.0 million and is shown as committed in the General Fund in the financial statements.

In addition to the reserve balances and contingencies permitted by state law, the Commissioners have pledged \$3.6 million for debt service on the special obligation bonds and notes. This amount is shown as committed in the General Fund.

The Treasurer is responsible for the investment of funds in accordance with the County's investment policy as authorized by the Investment Advisory Committee and in keeping with ORC § 135.35. Specific requirements and limitations are described in Note 4 to the basic financial statements. To maximize the County's return on investment, the Treasurer's Office employs a cash management program and contracts with an investment advisory firm that systematically coordinates cash management, bank relations and the investment of surplus cash. Communication with other County agencies is integral in this process. At December 31, 2015, the County had \$179.2 million unrestricted cash and investments in its General Fund and \$981.1 million for the entire reporting entity. The cash and investments balance includes the designated monies previously described.

It is the County's policy to issue long-term, fixed-rate debt as a supplement to current tax revenues and fund balances for financing infrastructure and capital projects. Consistent with Ohio law, long-term debt is not issued to support current operations. The County sells bond anticipation notes instead of bonds only when market conditions dictate, or as part of a multi-step construction program. The County will consider using either a competitive process or a negotiated process when issuing bonds. Debt capacity is benchmarked against means and medians for other triple-A rated counties of similar size and complexity as published by Moody's Investor Services and Standard & Poor's. The County's capital plan, debt obligations and debt capacity are evaluated together in an integrated manner, on an annual basis.

Long-term Financial Planning The capital budgeting process utilizes a detailed five-year capital plan. A multi-year linkage between operating and capital budgets aids in determining the impact on future spending. Particular attention is focused on extending an asset's life. A thorough preventive maintenance program is required on each project, helping to avert major or emergency repairs.

The County normally relies on the strength of its triple-A ratings, conservative fiscal practices, substantial revenue capacity, and reasonable debt ratios to access capital markets for financing projects. When beneficial in view of interest rates and the general economic picture, the County pays for capital improvements from current tax revenues and available cash balances. Franklin County's triple-A credit rating was reaffirmed by Moody's Investors Service and Standard & Poor's in May 2015.

Letter of Transmittal For the Year Ended December 31, 2015

Major Initiatives The County has undertaken projects for construction of key community assets, including:

- Renovation of the Judicial Services Building (formerly the Hall of Justice), which was vacated upon completion of the Common Pleas Courthouse in 2011. The first phase of the project totaling \$7.5 million included the design and abatement of asbestos, while the remaining phases will consist of renovations to the core, shell and infrastructure of the facility. Bonds in the amount of \$37.5 million were issued in 2013 for the next phase of the project, which brought four of the building's ten floors back into operation at the end of 2014. In 2015 additional work included the roof replacement and basement renovation. Additional floors will be renovated as needed in line with the County's long term space usage plan for the Franklin County Government Center.
- Installation of energy conservation measures at various County-owned facilities, including the Franklin County Government Center and Franklin County Correctional Facility II utilizing \$8.8 million in Qualified Energy Conservation Bonds issued through the Ohio Air Quality Development Authority. The County continues to improve upon its facilities in 2015 by completing the water infiltration repairs at the Government Center costing approximately \$950,638 and the HVAC and chiller system replacement at 80 East Fulton.
- The County entered into a Lease-Purchase Agreement for land located at 1700 Morse Road, Columbus, Ohio. The leased premise contains 98,547 square feet of space within the single-story office, and is occupied by the Board of Elections and the County's Print Shop. In addition to covering the cost of tenant improvements in an amount not to exceed \$6,250,000, the lease includes annual payments of \$477,948 in 2014, \$507,516 in 2015, and \$517,363 in 2016 with the option to purchase the facility in 2017 for \$7,508,331.
- Several infrastructure improvements were completed in 2015, including construction of a roundabout at the intersection of Alkire Road and Demorest Road with total expenditures of approximately \$1.9 million, upgrades to Dublin Road and Fishinger Road by widening and turn lane improvements with total expenditures of approximately \$1.4 million. Improvements of Chatterton Road between Fontaine Road and Reynard Road with total expenditures of about \$900,000, the installation of a pedestrian crossing on Snouffer Road with total expenditures of about \$90,000, and the improvement of Zuber Road Bridge over the Frederick-Francis Ditch with expenditures totaling about \$300,000. Another major infrastructure improvement in progress in 2015 was the widening and reconstruction of Hamilton Road from Rocky Fork Creek to US 62.
- The Network Redundancy and Reliability Initiative projects were completed in 2015. The first phase of the project totaling \$2.2 million and the second phase \$2.4 million. During 2015, the second phase provided additional servers and storage capacity to accelerate the speed of data backups and recovery, enhanced security and enabled the Courts to connect to the WeConnect disaster recovery site. It also included the configuration and installation of new network hardware, the replacement of uninterrupted power supplies and power distribution units and cabling throughout the Franklin County Government Center.

Letter of Transmittal For the Year Ended December 31, 2015

• Both the Leonard Park water improvements and Eureka Park sanitary sewer improvements projects were completed in 2015. Other projects completed was replacement of over two miles of public water mains along West Broad Street in partnership with the Ohio Department of Transportation (ODOT) and the completion of phase 1 and initiation of phase 2 of the Sanitary Sewer Evaluation Study of over 100 miles of sanitary sewers. Phase 1 included creating comprehensive GIS map with attributes and scanned record drawings. Phase 2 is the physical analysis and hydraulic flow modeling of the sewer systems for proper assessment for repairs or replacements of these sewers. The total spent or committed on these water or wastewater improvements exceeds \$21 million.

These projects have been at least partially funded through long-term debt. See the discussion of Long-Term Debt in the MD&A on pages 17-18 and Note 10 for more information.

With respect to future capital improvements, the County anticipates that additional jail space will be needed based on the condition of the current facilities and forecasted population growth for the County over the next several years. Planning and design for a new jail facility is currently ongoing. Additionally, a Forensic Science Center is required to replace the current County Coroner's morgue and laboratory facilities. The County is using the proceeds from the temporary sales tax which will provide a total of \$200 million for the completion of both projects out of the Public Safety Center Fund. The County's temporary sales tax rate of one quarter of one percent will expire on December 31, 2018. At the end of 2015, \$47 million has been allocated towards this initiative.

Awards and Acknowledgements

Awards The Government Finance Officers Association (GFOA) has awarded us the Certificate of Achievement for Excellence in Financial Reporting for the year ended December 31, 2014. The County has received this prestigious award for thirty-two consecutive years. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. To earn the Certificate of Achievement, the County published a readable and well-organized CAFR whose contents conformed to program standards and satisfied GAAP and applicable legal requirements. The Certificate of Achievement is valid for a period of one year. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

The GFOA has also presented us an Award for Outstanding Achievement in Popular Annual Financial Reporting for the year ended December 31, 2014. This is our twentieth consecutive Award. To earn the Award, the Auditor's Office published the Franklin County Annual Financial Report to provide taxpayers and other interested parties with an overview of the County's financial condition and results of its operations. The 2015 Annual Report will be submitted to the GFOA for award consideration.

Letter of Transmittal For the Year Ended December 31, 2015

Acknowledgements The preparation of this report could not have been accomplished without the dedicated effort of the entire Fiscal Services Division. I especially want to thank the Financial Reporting Department who worked diligently to continue to comply with the precise guidelines established by the GFOA's award programs. Their commitment to excellence in financial reporting added to the quality of this CAFR. I would also like to express my appreciation to each of the County's elected officials and the various County agencies for their cooperation in the preparation of this report.

Sincerely,

Clarence E. Mingo, II Franklin County Auditor

To the Board of County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Ohio (the County), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of ARC Industries, Inc. of Franklin County, Ohio and the Franklin County Stadium, Inc. and Columbus Baseball Team, Inc., the County's discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included for the County, is based solely on the report of other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control.

Franklin County Independent Auditor's Report Page 2

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Ohio, as of December 31, 2015, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Board of Developmental Disabilities, Children Services Board, and Alcohol, Drug and Mental Health Board Funds, thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during the year ended December 31, 2015, the County adopted Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and also GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and *schedules of net pension liabilities and pension contributions*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information present additional analysis and are not a required part of the basic financial statements.

Franklin County Independent Auditor's Report Page 3

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied to the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2016, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Dave Yost Auditor of State

Columbus, Ohio

June 29, 2016

Unaudited

As management of Franklin County (the County), we offer readers this narrative overview and analysis of the financial activities of the County as a whole for the fiscal year ended December 31, 2015. We encourage readers to consider the information presented here in conjunction with our letter of transmittal, which can be found at the front of this report, and the financial statements, which follow this section and provide more specific detail. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights

- The County's assets and deferred outflows exceeded its liabilities and deferred inflows at the close of 2015 by \$1.174 billion. Of this amount, \$6.5 million is considered unrestricted. Unrestricted net position may be used to meet ongoing obligations. The unrestricted net position of the County's governmental activities and business-type activities are \$4.3 million and \$2.2 million, respectively.
- The County's total net position increased by \$72.5 million in 2015, an increase of 6.6 percent. Net position of the governmental activities increased \$69.4 million, or 6.5 percent. Net position of the business-type activities increased \$3.1 million, or 9.2 percent.
- Total revenues for 2015 were \$1.181 billion. General revenues (taxes, investment earnings, unrestricted grants) accounted for \$734.4 million, or 62.2 percent of all revenues. Program revenues (charges for services, program-specific grants and contributions) were \$446.6 million, or 37.8 percent.
- The County's expenses related to governmental activities were \$1.097 billion. Of this amount, \$434.9 million, or 39.6 percent of the total expenses were offset by program revenues. General revenues, primarily taxes, provided for the remaining amount.
- At the close of 2015, the County's governmental funds reported a combined ending fund balance of \$862.3 million, an increase of \$61.4 million in comparison with the prior year. Of the combined fund balance, \$187.8 million was considered unassigned and available for spending at the County's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$189.5 million, or 45.3 percent of total General Fund expenditures (including transfers out). Unassigned fund balance for the General Fund increased by \$15.4 million, or 8.8 percent, when compared to 2014's General Fund unassigned fund balance.
- The County's net investment in capital assets of \$498.3 million increased by \$12.1 million, representing a 1.5 percent increase related to governmental activities and a 18.3 percent increase related to business-type activities.
- The County's total long-term debt (bonds, notes, loans and capital leases) of \$364.3 million decreased by \$11.7 million, representing a 3.1 percent decrease in debt related to governmental activities and a 7.6 percent increase in debt related to business-type activities.

Unaudited

Overview of the Financial Statements

Management's discussion and analysis is intended to serve as an introduction to the County's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information.

Government-wide Financial Statements The government-wide financial statements provide a broad overview of the County's finances in a manner similar to a private-sector business and can be found on pages 20 and 23 of this report.

The statement of net position presents information on all the County's assets and deferred outflows and liabilities and deferred inflows, with the difference reported as net position. Over time, the change in net position may serve as a useful indicator of whether the County's financial position is improving or declining.

The statement of activities shows how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover their costs through user fees and charges (business-type activities). The County's governmental activities include general government, judicial, public safety, human services, health, public works, conservation and recreation, and community development functions. The County's business-type activities include water and sewer, and parking facilities operations.

The government-wide financial statements include not only Franklin County itself (known as the primary government), but also certain organizations for which the County is financially accountable. Financial information for these component units is reported separately. The County's component units include ARC Industries, Incorporated, of Franklin County, Ohio (ARC Industries); Veterans Memorial Hall; and Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. (Stadium and Team). Notes 1 and 18 to the basic financial statements contain more information about the component units.

Fund Financial Statements A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The County's funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements.

Unaudited

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements so as to understand the long-term impact of the County's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide reconciliations to facilitate this comparison between governmental funds and governmental activities. See pages 26 and 30 of this report.

The County maintains many individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for those funds considered to be major funds. For Franklin County, these are the General Fund, Board of Developmental Disabilities (FCBDD) fund, Children Services Board fund, and Alcohol, Drug and Mental Health (ADAMH) Board fund. Data from the other governmental funds is aggregated for presentation as a single column. Individual fund data for each of the nonmajor governmental funds is provided in the combining statements.

The County adopts a budget resolution annually. Financial statements for the major funds have been prepared on a budgetary basis that does not conform with generally accepted accounting principles (GAAP) and are provided on pages 31 – 34 to demonstrate budgetary compliance.

Proprietary Funds: The County maintains two types of proprietary funds. Enterprise funds report the same functions presented as business-type activities in the government-wide financial statements. Enterprise funds are used to account for water and sewer, and parking facilities operations. Internal service funds are an accounting device used to accumulate and allocate costs internally across the County's various functions. Internal service funds are used to account for employee benefits and telecommunications. Because the services accounted for in the internal service funds predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements show the Water and Sewer fund and the Parking Facilities fund separately; the internal service funds are aggregated. The basic proprietary fund financial statements are on pages 35-37.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because those resources are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statement can be found on page 38.

Notes to the Basic Financial Statements The notes provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 39 - 103.

Other Information The combining statements referred to earlier in connection with nonmajor governmental funds, proprietary funds, fiduciary funds and component units are presented immediately following the notes. Individual fund schedules prepared on a non-GAAP, budgetary basis are also presented. Combining nonmajor fund statements and individual fund schedules can be found on pages 112-183 of this report.

During 2015, the County adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the County's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

Unaudited

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" - that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the County's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the County is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2014, from \$1.342 billion to \$1.067 billion for governmental activities and from \$35.2 million to \$34.1 million for business-type activities.

As noted earlier, net position may serve as a useful indicator of the County's financial position. The County's assets and deferred outflows exceeded liabilities and deferred inflows by \$1.174 billion (\$1.137 billion in governmental activities and \$37.3 million in business-type activities) at the close of 2015. The County as a whole, and its separate governmental and business-type activities, had positive balances in all categories of net position, other than unrestricted, in the prior fiscal year as well.

A large portion of the County's net position (42.5 percent) reflects its net investment in capital assets (e.g., land, buildings and improvements, infrastructure, machinery and equipment, and construction in progress) less accumulated depreciation and any related outstanding debt that had been used to acquire those assets. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Unaudited

An additional portion of the County's net position (57.0 percent) represents resources that are subject to external or legal restrictions on how they may be used. The remaining balance of net position (\$6.5 million) is unrestricted and may be used to meet the County's ongoing obligations to citizens, employees and creditors. It is important to note, however, that the unrestricted net position of the County's business-type activities (\$2.2 million) may not be used to fund governmental activities. The net investment in capital assets increased by \$12.1 million or 2.5 percent, primarily related to building improvements, purchases of machinery and equipment, and various infrastructure improvements. Restricted net position increased by \$39.4 million in 2015 when compared with 2014.

The County's total net position increased by \$72.5 million during 2015: \$69.4 million increase for governmental activities and \$3.1 million increase for business-type activities. The following table shows the changes in net position for 2015 compared with 2014:

| | | Changes in N (Amounts | | | | |
|-----------------------------|-------------------------|--------------------------|--------------------------|-----------|--------------|--------------|
| | Governmental Activities | | Business-type Activities | | Total | |

Unaudited

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$36.4 million computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred outflows and deferred inflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$41.1 million. Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

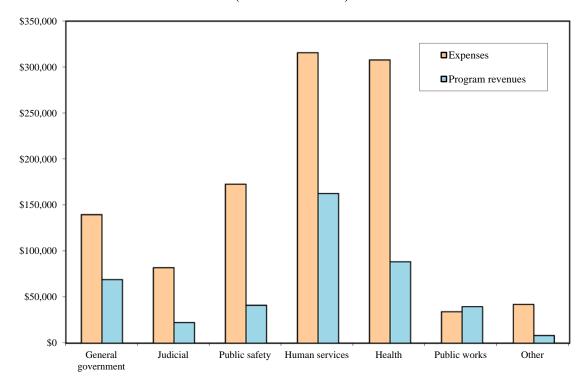

| | vernmental Activites | ness-Type ctivities | Total | | |
|---|-------------------------|------------------------|-------|--------------------|--|
| Total 2015 program expenses under GASB 68 | \$ 1,097,330 | \$ 11,118 | \$ | 1,108,448 | |
| Pension expense under GASB 68 2015 contractually required contribution | (40,940) 37,304 | (163) 141 | | (41,103) 37,445 | |
| Adjusted 2015 program expenses | 1,093,694 | 11,096 | | 1,104,790 | |
| Total 2014 program expenses under GASB 27 | 1,052,570 | 9,465 | | 1,062,035 | |
| Increase in program expenses not related to pension | \$ 41,124 | \$ 1,631 | \$ | 42,755 | |

Governmental Activities Governmental activities added to the County's net position by \$69.4 million. Key elements of this change are as follows:

- Property taxes decreased by \$5.0 million or 1.2 percent due to changes in taxable values and development.
- Capital grants and contributions decreased \$16.4 million due to decreases in grant funding.
- Sales taxes increased by \$21.3 million over sales tax revenue of calendar year 2014 as a result of a 0.5 percent increase in the sales tax rate effective January 1, 2014 and a rebounding economy.
- Operating grants and contributions increased by \$11.1 million resulting from increases in federal funding.
- Expenses for nearly all general government functions increased to correspond with increased revenues. In total, governmental activities expenses increased \$44.8 million, the majority of which were in human services, general government, public safety and judicial expenses.

Unaudited

Expenses and Program Revenues – Governmental Activities (Amounts in 000's)

For governmental activities, total revenues exceeded expenses, resulting in a \$69.4 million increase in net position during 2015.

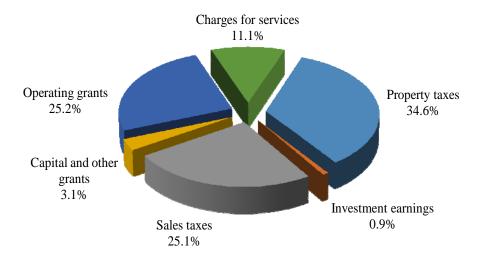

Operating grants were the largest type of program revenue, accounting for \$295.0 million or 25.2 percent of total governmental revenues. The major recipients of operating grant revenue were FCBDD, the Children Services Board, the ADAMH Board, and the Department of Jobs and Family Services.

Property taxes accounted for \$404.5 million or 34.6 percent of total revenues for governmental activities. The major recipients of property tax revenues were FCBDD, the Children Services Board, the ADAMH Board and the General Fund. Another major component of general revenues was sales tax, which totaled \$293.8 million. Sales tax was the largest revenue source for the General Fund.

Charges to users of governmental services, another type of program revenue, made up \$129.7 million or 11.1 percent of total governmental revenues. These charges included fees for conveyance of real estate, fees associated with the collection of property taxes, fines and forfeitures related to judicial activity, and licenses and permits.

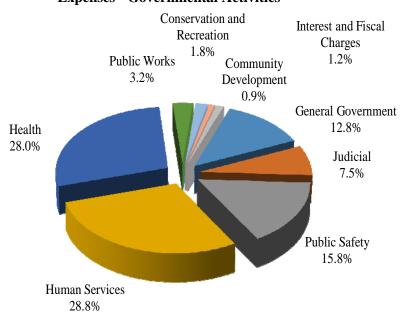

Unaudited

Revenues - Governmental Activities

On the expense side, the largest activity in 2015 was human services, accounting for \$315.8 million or 28.8 percent of the total expenses for governmental activities. The major providers of human services activities are Children Services and Jobs and Family Services. The health services program accounted for \$308.0 million or 28.0 percent of total governmental expenses. The major providers of health activities are FCBDD and ADAMH Board. The general government function represents activities related to the governing body as well as activities that directly support other County programs that serve the County's residents. In 2015, this represented 12.8 percent of the County's total governmental expenses. General government expenses for 2015 increased by \$13.6 million or 10.8 percent from the prior year.

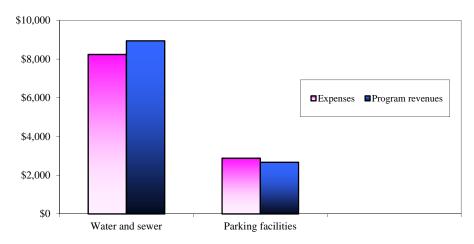

Expenses - Governmental Activities

Unaudited

Business-type Activities The County's net position for business-type activities increased by \$3.1million. Capital grants and contributions totaling \$0.8 million were received for water and sewer.

Expenses and Program Revenues - Business-type Activities (Amounts in 000's)

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. This information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a measure of the County's net resources available for spending at the end of the year.

At December 31, 2015, the County's governmental funds reported combined ending fund balances of \$862.3 million, an increase of \$61.4 million in comparison with the prior year balances. Approximately \$187.8 million of this amount constitutes unassigned fund balance, available for spending at the County's discretion. The remainder is nonspendable, restricted, committed or assigned to indicate that it is not available for new spending because it is related to notes receivable, advances to other funds or inventories of consumable supplies, none of which can easily be converted into cash.

General Fund The General Fund is the chief operating fund of the County. The net change in the fund balance of the General Fund was an increase of \$16.1 million during 2015. At December 31, 2015, unassigned fund balance of the General Fund was \$189.5 million, while total fund balance was \$224.7 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 45.3 percent of total General Fund expenditures (including transfers out), while total fund balance represents 53.7 percent of that same amount.

Unaudited

Major Special Revenue Funds The Board of Developmental Disabilities, Children Services Board, and ADAMH Board funds are major special revenue funds used to account for specific governmental revenues and the associated expenditures are restricted to specified purposes because of legal or regulatory provisions or administrative action. The Board of Commissioners must approve tax levy requests before they are placed on the ballot.

The Board of Developmental Disabilities fund accounts for property taxes and federal and state grants restricted to expenditures for those services that benefit the developmentally disabled. Property tax revenue increased by \$0.4 million and intergovernmental revenue decreased by \$3.6 million when compared to the prior year. Expenditures for social service contracts, medical providers, and the maintenance and operation of buildings and buses increased by \$4.0 million or 1.8 percent when compared with the prior year. The net change in fund balance for 2015 was a decrease of \$3.8 million or 1.3 percent.

The Children Services Board fund accounts for property taxes and federal funds restricted for programs designed to help abused, neglected, dependent, and troubled children and their families. The net change in fund balance for 2015 was a decrease of \$3.8 million or 2.9 percent. The primary factor for the decrease in fund balance was the increase in expenditures. Expenditures increased by \$10.7 million or 6.2 percent.

The ADAMH Board fund accounts for alcohol and drug addiction treatment programs and mental health services to the public, generally through contracts with local health care providers. The largest revenue sources are property taxes and state funding. The net change in fund balance for 2015 was a decrease of \$2.5 million or 3.0 percent. Property tax revenue remained relatively constant compared to revenue reported in 2014. However, intergovernmental revenue decreased by \$6.4 million or 23.5 percent. Expenditures decreased by \$0.1 million or 0.2 percent.

Other Governmental Funds Other Governmental Funds represents all nonmajor special revenue funds, nonmajor capital projects funds and nonmajor debt service funds. The largest revenue sources are intergovernmental revenues from the state (primarily related to road and bridge construction and collection of court-ordered child support) and property taxes for the zoo and for senior services. The net change in fund balance for 2015 was an increase of \$55.5 million or 68.0 percent.

Proprietary Funds The County's proprietary funds provide the same type of information found in the business-type activities in the government-wide financial statements, but in more detail. Unrestricted net position of Water and Sewer at the end of the year amounted to a deficit of \$0.5 million and those for Parking Facilities amounted to \$2.7 million. The total change in net position for the funds was an increase of \$3.4 million and a decrease of \$0.2 million, respectively. Other factors concerning the finances of these two funds have already been addressed in the discussion of the County's business-type activities.

Unaudited

Budgetary Highlights

The County's budget is prepared according to Ohio law. The most significant budgeted fund is the General Fund. For calendar year 2015, the total original appropriations for the General Fund, including those for advances and transfers out, were \$421.4 million, while the final appropriations were \$436.7 million, resulting in a net increase of \$15.3 million or 3.6 percent. While the total general fund budget did not change significantly between original and final budget, there were some significant changes to the functional classifications. The originally budgeted amount of \$5.0 million within the Board of Commissioners budget as a contingency item was reclassified to other functional areas as needs were evident. Major adjustments included commitments to certain construction and permanent improvement projects, support for human services and support of community partnerships.

Final General Fund appropriations for 2015 were higher than the final 2014 appropriations by \$53.9 million or 14.1 percent, and 6.0 percent higher than actual 2015 budgetary basis expenditures. Significant variances between the final budget and actual results for the General Fund are described as follows:

- Actual general government expenditures were \$3.6 million or 4.1 percent lower than budgeted. While all of the general government agencies had positive variances, the most significant variance was due to commissioner expenditures \$1.7 million lower than budget and the public facilities management expenditures \$0.9 million lower than final budget.
- Actual judicial expenditures were \$3.4 million or 3.4 percent lower than expected. Spending by clerk of courts was \$1.2 million lower than budgeted; the prosecuting attorney was \$0.9 million lower than budgeted, domestic and juvenile court was \$0.5 million lower than budgeted and by the common pleas court, \$0.3 million lower than budgeted.
- Actual public safety expenditures were \$1.5 million or 1.2 percent lower than expected, primarily due to Sheriff expenditures being \$1.3 million lower than final budget.
- Actual community development expenditures were \$2.2 million or 27.6 percent lower than expected.
 This variance was related to the establishment of the policies and appointment of the advisory board
 of the Franklin County Infrastructure Bank, which will occur in 2017 rather than 2016 as originally
 anticipated during the budgetary process.
- Actual transfers out of the General Fund were \$13.6 million lower than final budget due to the lack of the need to transfer monies from pledged amounts.

Capital Asset and Debt Administration

Capital Assets The County's net investment in capital assets for its governmental and business-type activities at December 31, 2015, amounts to \$498.3 million. The increase in the County's net investment in capital assets for 2015 was 2.5 percent when compared to 2014 activity. The amount reported for capital assets in the financial statements decreased by \$2.7 million as detailed in the table below:

| Capital Assets, Net of Depreciation | | | | | | | | | |
|--|------------|--|-----------|-----------|------------|------------|--|--|--|
| (Amounts in 000's) Governmental Business-type | | | | | | | | | |
| | | Governmental Business-type Activities Activities | | | Total | | | | |
| | 2015 | 2014 | 2015 | 2014 | 2015 | 2014 | | | |
| Land | \$ 65,738 | \$ 65,084 | \$ 442 | \$ 442 | \$ 66,180 | \$ 65,526 | | | |
| Buildings and improvements | 411,277 | 427,224 | 7,094 | 7,343 | 418,371 | 434,567 | | | |
| Infrastructure | 171,224 | 173,269 | 36,816 | 27,981 | 208,040 | 201,250 | | | |
| Machinery and equipment | 44,804 | 38,287 | 813 | 665 | 45,617 | 38,952 | | | |
| Construction in progress | 92,891 | 90,684 | 10,372 | 13,153 | 103,263 | 103,837 | | | |
| | \$ 785,934 | \$ 794,548 | \$ 55,537 | \$ 49,584 | \$ 841,471 | \$ 844,132 | | | |
| | | | | | | | | | |

The major capital asset expenditures during 2015 involved construction projects: renovation of the Hall of Justice, construction of the Sheriff Training Academy, construction of the Board of Elections Facility, construction of the Public Safety Center, building improvements and infrastructure improvements and purchases of machinery and equipment. More information regarding the County's capital assets can be found in Note 9 on pages 67 – 69.

Long-term Debt At December 31, 2015, the County had total long-term debt outstanding of \$364.3 million. All of the County's debt is unvoted. General obligation debt as shown in the table below includes bonds, notes, loans and capital leases.

| | | | ding Debt s in 000's) | | | | |
|---------------------------|------------|-------------------|--------------------------|--------------------|------------|------------|--|
| | | nmental vities | | ess-type vities | Total | | |
| | 2015 | 2014 | 2015 | 2014 | 2015 | 2014 | |
| General obligation debt | \$ 261,112 | \$ 279,189 | \$ 8,450 | \$ 8,510 | \$ 269,562 | \$ 287,699 | |
| Special obligation debt | 31,067 | 34,168 | 13,056 | 11,438 | 44,123 | 45,606 | |
| Unamortized bond premiums | 27,488 | 18,978 | 330 | 352 | 27,818 | 19,330 | |
| Capital leases | 22,837 | 23,409 | - | - | 22,837 | 23,409 | |
| • | \$ 342,504 | \$ 355,744 | \$ 21,836 | \$ 20,300 | \$ 364,340 | \$ 376,044 | |

The County's total long-term debt decreased by \$11.7 million, or 3.1 percent during calendar year 2015. During 2015, \$72.2 million was received for governmental activity construction projects and debt refunding, \$2.3 million was received for business-type activity construction projects, and retiring special obligation notes were partially refinanced.

Unaudited

Both Standard & Poor's and Moody's Investor Services have given Franklin County a "triple-A" credit rating, the highest rating possible. The County's rating is based on the County's financial management and debt burden, and the strength of the local economy. The County is within all its legal debt limitations. As of December 31, 2015, the County's non-exempt debt was \$227.5 million. The County's limit for total voted and unvoted non-exempt debt was \$664.6 million, leaving a borrowing capacity of \$437.1 million. Unvoted, non-exempt debt is limited to one percent of total assessed property value. For 2015, that limit was \$266.4 million, leaving a borrowing capacity of \$38.9 million. The aggregate amount of the County's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions. At year-end, the County's total net bonded debt amounted to 0.9 percent of the total assessed value of all property within the County.

In addition to the bonded debt, notes, loans and capital leases, the County's long-term obligations include compensated absences, workers' compensation and net pension liability. More information regarding the County's long-term obligations can be found in Note 10 on pages 70 - 78.

Economic Factors and Next Year's Budgets and Rates

Franklin County has experienced significant growth in the past thirty years, both in population and in tax base. The County's financial condition remains strong. The County's General Fund unrestricted cash balance at December 31, 2015, was \$179.2 million, an amount sufficient to cover General Fund expenditures for approximately six months.

When preparing the budget for the 2016 fiscal year, the following factors were taken into consideration:

- Franklin County's unemployment rate for 2015 was 4.1 percent, a decrease of 0.7 percent from 2014. Although unemployment has decreased, the demand for health and human services provided by County agencies is expected to continue.
- Sales tax revenues are projected to increase as a result of an increase in the rate of sales and use tax by one-half of one percent effective January 1, 2014 as well as a rebounding economy and remain a significant revenue source. Another major revenue source, the local government fund, is expected to be significantly reduced in future years.
- Investment earnings are expected to be consistent with 2015 in the General Fund and overall.
- General Fund cash reserves are expected to increase \$26.2 million in 2016 as a result of cost saving measures.

Requests for Information

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances, and to demonstrate accountability for the money the County receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Franklin County Auditor, Fiscal Services Division, 373 South High Street, 21st Floor, Columbus, Ohio 43215-6310. This report is also available on-line at www.franklincountyauditor.com/fiscal/financial-reports.

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities December 31, 2015

(Amounts in 000's)

| | , | , |
|--|-----------|-------------------|
| | | |
| Total fund balances - governmental funds (page 25) | | \$ 862,329 |
| Amounts reported for governmental activities in | | |
| the statement of net position (page 21) are different because: | | |
| Capital assets used in governmental activities are not financial | | |
| resources and, therefore, are not reported in the funds. | | 785,934 |
| Other assets are not available to pay for current period | | |
| expenditures and, therefore, are deferred in the funds: | | |
| Accrued interest receivable | 1,119 | |
| Sales taxes receivable | 30,046 | |
| Accounts receivable | 1,367 | |
| Due from other funds | 1,307 | |
| | | |
| Due from other governments | 76,061 | |
| Property taxes receivable | 12,835 | |
| Leases receivable | 962 | |
| | | 122,537 |
| Internal service funds are used by management to charge the | | |
| costs of employee benefits and telecommunications | | |
| to individual funds. The assets and liabilities of the internal | | |
| service funds are included in governmental activities in the | | |
| | | 14.701 |
| statement of net position. | | 14,791 |
| Some liabilities are not due and payable in the current period | | |
| and, therefore, are not reported in the funds: | | |
| Accrued interest | (1,094) | |
| General obligation bonds and notes | (261,112) | |
| Taxable special obligation bonds and notes | (27,165) | |
| Unamortized bond premiums, discounts, and charges | (13,603) | |
| Loans | (3,902) | |
| Compensated absences | (45,338) | |
| | (3,848) | |
| Workers' compensation | * * * * | |
| Capital leases | (22,837) | (0- 0.00) |
| | | (378,899) |
| The net pension liability is not due and payable in the current | | |
| period; therefore, the liability and related deferred outflows | | |
| and deferred inflows are not reported in governmental funds. | | |
| Deferred outflows of resources - pension | 55,311 | |
| Deferred outnows of resources - pension | (8,238) | |
| | | |
| Net pension liability | (317,203) | (270.120) |
| | | (270,130) |
| Net position of governmental activities (page 21) | | \$ 1,136,562 |

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2015 (Amounts in 000's)

| Net change in fund balances - total governmental funds (page 29) | | \$ | 61,424 |
|--|----------|----|----------|
| Amounts reported for governmental activities in the statement of activities (page 23) are different because: | | | |
| Governmental funds report capital outlays as expenditures. | | | |
| However, in the statement of activities, the cost of those assets | | | |
| is allocated over their estimated useful lives as depreciation | | | |
| expense. The effect on the change in net position is calculated | | | |
| as follows: | | | |
| Per statement of revenues, expenditures and changes in fund balances: | | | |
| Capital outlay expenditures | 10,647 | | |
| Capitalized expenditures reported in functional areas | 19,233 | | |
| Per statement of activities: | | | |
| Depreciation expense (Note 9) | (28,826) | | |
| | | | 1,054 |
| The net effect of transactions involving sales and retirements of capital | | | (0.669) |
| assets decreased net position (Note 9) | | | (9,668) |
| Payanuas in the statement of activities that do not provide current | | | |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. The amount | | | |
| is the net effect of the prior year items against current year accruals. | | | (9,473) |
| is the net effect of the prior year herris against current year accruais. | | | (9,473) |
| Proceeds of debt provide current financial resources to governmental | | | |
| funds, but issuing debt increases long-term liabilities in the | | | |
| statement of net position. Repayment of principal is an expenditure | | | |
| in the governmental funds, but the repayment reduces long-term | | | |
| liabilities in the statement of net position. The effect on the change in | | | |
| net position is as follows: | | | |
| Per statement of revenues, expenditures and changes in fund balances: | | | |
| Issuance of debt, including refunding bonds and capital leases | (72,393) | | |
| Principal retirement, including capital leases (Note 10) | 23,094 | | |
| | | | (49,299) |
| Governmental funds report the effect of issuance costs and premiums when | | | |
| the debt is first issued, whereas these amounts are deferred to future | | | |
| periods and amortized in the statement of activities. The effect | | | |
| on the change in net position is as follows: | | | |
| Per statement of revenues, expenditures and changes in fund balances: | | | |
| Premiums on issuance of debt (Note 10) | (10,756) | | |
| Per statement of activities: | | | |
| Amortization of bond premiums (Note 10) | 2,228 | | |
| Amortization of deferred charges (Note 10) | (877) | | |
| | | | (9,405) |
| Contractually required contributions are reported as expenditures in | | | |
| governmental funds; however, the statement of net position reports | | | |
| these amounts as deferred outflows. | | | 37,304 |
| | | | |
| Except for amounts reported as deferred outflows or deferred inflows, | | | |
| changes in the net pension liability are reported as pension expense | | | |
| in the statement of activities. | | | (40,940) |
| | | | |
| Some expenses are reported in the statement of activities but do | | | |
| not require the use of current financial resources and therefore | | | |
| are not reported as expenditures in governmental funds. The amount | | | |
| is the net effect of prior year items against current year accruals. | | | 90,235 |
| Internal comics funds are used by management to charge the | | | |
| Internal service funds are used by management to charge the | | | |
| costs of employee benefits and telecommunications to individual | | | |
| funds. The net revenue of the internal service funds is reported with governmental activities. | | | (1,833) |
| reported with governmental activities. | | | (1,033) |
| Change in net position of governmental activities (page 23) | | s | 69,399 |
| change in her position of governmental activities (page 23) | | Ψ | 07,377 |

Note 1 – Summary of Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting principles. Franklin County (the County and the primary government) follows GASB guidance as applicable to its governmental and business-type activities. The most significant of the County's accounting policies are described below.

A. Reporting Entity

Franklin County was formed in 1803 and is a political subdivision of the State of Ohio. The three Commissioners serve as the County's budgeting, taxing and contracting authority. The Auditor serves as the chief fiscal officer. The Treasurer serves as the custodian of funds. All are elected positions.

The reporting entity is comprised of the primary government and other organizations (component units) that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the County and for which the Commissioners are financially accountable.

Component units are legally separate organizations for which the County is financially accountable. Financial accountability exists in situations where the Commissioners appoint a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations for which the County approves the budget, the issuance of debt or the levying of taxes.

The component units column on the government-wide financial statements includes the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize their legal separation from the County. Condensed financial information for each component unit is provided in Note 18.

ARC Industries, Incorporated, of Franklin County, Ohio (ARC Industries) ARC Industries is a sheltered, not-for-profit workshop that enters into contracts with the business community to provide workers for various manufacturing and service industry jobs. ARC Industries employs clients of the Franklin County Board of Developmental Disabilities (FCBDD) to fill these positions. FCBDD is part of the primary government and its operations are accounted for as a special revenue fund. All supervisory personnel at ARC Industries are FCBDD employees. FCBDD trains the client-employees and provides the training supplies as well as the production facilities. ARC Industries buys the supplies used in its manufacturing processes. The two entities cooperate under a joint agreement that is automatically renewed annually unless either party gives notice within thirty days of year-end of its intention to cancel the agreement.

Note 1 – Summary of Significant Accounting Policies (Continued)

Through ARC Industries' relationship and financial integration with the FCBDD, ARC Industries is fiscally dependent on the County, and there is a financial benefit or financial burden relationship between the County and ARC Industries.

Veterans Memorial Veterans Memorial Hall was built to commemorate the services of all members and veterans of the United States armed forces and to provide a center for veterans' meetings and programs. The Commissioners appoint the board of trustees in a non-authoritative manner. The designation of Veterans Memorial's management and control of its operations are under the direction and control of the trustees.

The County owned Veterans Memorial and leased it to the trustees under an agreement that extended until 2015. Under the agreement, the County received rent equal to Veterans Memorial's annual net income from operations plus all reserves in excess of \$250,000. No rent had been paid the last ten years (2005 - 2014). The County issued general obligation bonds to finance renovations and improvements to the facility. Debt service is the County's responsibility.

On July 31, 2014, Veteran's Memorial ceased event and facility operations and worked with customers to reimburse monies owed for deposits on events scheduled after the date of cessation of operations. Daily parking operations continued through the remainder of 2014, and through July 24, 2015. While the County retains ownership of the land, on July 24, 2015 the County transferred possession of the land, including the operation of the daily parking operations, for the building of the new Ohio Veterans Memorial and Museum.

Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. (Stadium and Team) These two interrelated nonprofit corporations were organized under Ohio Revised Code (ORC) Chapter 1702 to provide entertainment and recreation in the stadium for the benefit and general welfare of the County. Upon dissolution of the corporations, their assets become the property of the Commissioners. The Franklin County Board of Parks and Recreation directs both the stadium and the team. While appointed by the Commissioners, the board operates autonomously and selects its own management.

The County owns the franchise for the team, entitling the County to field a team in the International League but without the authority to determine which team plays in the stadium. During 2007, the County issued special obligation bonds and notes for the construction of a new stadium (Huntington Park) and has pledged non-tax General Fund revenue for the related annual debt service, placing a financial burden on the County. The County owns the ballpark, and leases it to Stadium and Team through a lease agreement expiring in December 2033. See Note 8 for more information about the lease.

Complete financial statements for each of the individual component units may be obtained from the unit's administrative office.

Note 1 – Summary of Significant Accounting Policies (Continued)

In the case of the entities listed below, the County serves as fiscal agent but is not financially accountable for their operations. Accordingly, the activities of these entities are presented as agency funds within the basic financial statements.

Franklin County Public Health
Franklin County Soil and Water Conservation District
Mid-Ohio Regional Planning Commission
Franklin County Community Based Correctional Facility

The County's joint ventures and related organizations are listed below. A joint venture is a legal entity or other organization that results from a contractual arrangement, and that is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or responsibility. For the related organizations, the County either appoints or acts as a member on the board, but the County's accountability for the organizations does not extend beyond the board membership, or the County receives financial benefit from the organization. See Notes 19 and 20, respectively, for more detail.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Measurement Focus Measurement focus refers to what is expressed in reporting an entity's financial performance and position. A particular measurement focus is accomplished by considering which resources are measured. Changes in the economic resources are reflected as changes in net position (total assets and deferred outflows less total liabilities and deferred inflows). This focus is used in the government-wide, the proprietary fund and the fiduciary fund financial statements. Changes in the current financial resources focuses on the transactions or events that have increased or decreased the resources available for spending in the near future. This focus is used in the governmental fund financial statements.

Note 1 – Summary of Significant Accounting Policies (Continued)

Basis of Accounting Basis of accounting determines when transactions are reported on the financial statements. Differences in the accrual and the modified accrual basis of accounting arise in the timing of recognition of revenue and the recording of unavailable revenue, and in the presentation of expenses versus expenditures. The government-wide, the proprietary fund and the fiduciary fund financial statements report transactions on the accrual basis. The governmental fund financial statements utilize the modified accrual method. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means that the resources will be collected soon enough to be used to pay liabilities of the current fiscal year. The County considers revenues to be available if collected within sixty days of year-end. Under the non-GAAP budgetary basis, transactions are recorded when cash is received or disbursed.

Revenues: Exchange and Non-exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants, entitlements and donations. On the accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place.

On the modified accrual basis, revenue from transactions must also be available before it can be recognized. Under this basis, the following revenue sources are considered to be both measurable and available at year-end: sales taxes, interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

Unearned Revenue Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue, as are loans receivable.

Unavailable Revenue Resource inflows that do not qualify for recognition as revenue in a governmental fund because they are not yet considered to be available. Sales taxes collected by the State as of December 31, 2015 and due to the County have been recorded as unavailable revenue. Property taxes for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance year 2016 operations, have been recorded as unavailable revenue. Also grants and entitlements received before the eligibility requirements are met are recorded as unavailable revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is decreases in net financial resources (expenditures) rather than expenses. On the modified accrual basis, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, provided current financial resources are to be used. As a result, compensated absences and most claims and judgments are not recorded as expenditures or liabilities until current financial resources are required. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 1 – Summary of Significant Accounting Policies (Continued)

Financial Statement Presentation The County's basic financial statements consist of government-wide statements displaying information about the County as a whole, and fund financial statements that provide a more detailed level of financial information.

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. The statement of net position and the statement of activities include the non-fiduciary financial activities of the primary government and its component units. The statements distinguish between those primary government activities that are governmental (financed primarily by taxes and grants) and those that are business-type (relying significantly on user fees and charges). Component units are aggregated and shown in a single column, regardless of the type of underlying activity.

The statement of net position presents the financial condition of the governmental and business-type activities of the County and its component units at year-end. All assets, liabilities and deferrals associated with the operation of the County are included. Interfund receivables and payables within governmental activities and within business-type activities have been eliminated to minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total columns. The balances of the internal service funds have been eliminated against the expenses and program revenues shown in governmental activities on the statement of activities.

The statement of activities demonstrates the degree to which the direct expenses are offset by program revenues for each function of the County's governmental activities, for each segment of the business-type activities of the County and for activities of the County's component units. This comparison of direct expenses with program revenues identifies the extent to which each segment or function is self-financing or draws from the County's general revenues. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function or segment. Program revenues include (1) charges paid by the recipient of the goods or services and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues are presented as general revenues of the County. The activities of the internal service funds and interfund activity within the same function have been eliminated to avoid duplicating revenues and expenses. However, interfund services provided and used between functions are not eliminated in the process of consolidation. The County does not allocate indirect expenses to functions or segments in the statement of activities.

Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements that specify the year when the resources are required to be used or the year when use is first permitted; matching requirements in which the County must provide local resources to be used for a specified purpose; and expenditure requirements in which the resources are provided to the County on a reimbursement basis.

Note 1 – Summary of Significant Accounting Policies (Continued)

Fund Financial Statements The County uses funds to segregate transactions related to certain functions or activities in order to aid financial management and demonstrate legal compliance. Separate financial statements present financial information at a more detailed level for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The governmental and enterprise fund financial statements focus on major funds, with each major fund presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The County also maintains two internal service funds. Agency funds, a type of fiduciary fund, are used to account for assets held by the government as agent for individuals, private organizations and other governments.

Governmental Funds Governmental funds are those through which most governmental functions are financed. All governmental funds are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and deferred inflows of resources generally are included on the balance sheet. Expendable assets are assigned to the various governmental funds according to the purposes for use. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows of resources is reported as fund balance. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Reconciliation with brief explanations is included so as to better identify the relationship between the government-wide statements and the statements for governmental funds.

The following are the County's major governmental funds:

General Fund The General Fund is the primary operating fund and is available for any purpose, provided it is expended or transferred in accordance with state law. It accounts for all financial resources of the primary government not recorded elsewhere.

Board of Developmental Disabilities (FCBDD) Fund The FCBDD fund accounts for property taxes and federal and state grants restricted to expenditures for those services that benefit its clients. Expenditures include those for social service contracts, medical providers and the maintenance and operation of buildings and buses.

Children Services Board Fund The Children Services Board fund accounts for property taxes and federal and state funds restricted for programs designed to help abused, neglected, dependent and troubled children and their families.

Alcohol, Drug and Mental Health Board (ADAMH Board) Fund The ADAMH Board fund accounts for the provision of alcohol, drug addiction and mental health services to the public, generally through contracts with local mental health agencies. The largest revenue sources are property taxes, and federal and state funding.

Note 1 – Summary of Significant Accounting Policies (Continued)

The County's nonmajor governmental funds account for (1) grants and other resources where use is restricted to a particular purpose; (2) the accumulation of resources for, and payment of, the principal, interest and related costs for the County's long-term debt; and (3) financial resources used for the acquisition, construction or renovation of facilities (other than those financed by proprietary funds).

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service. Like the government-wide statements, all proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. All assets, deferred outflows, liabilities and deferred inflows associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The County intends that the cost of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's enterprise funds are listed below:

Water and Sewer Fund The Water and Sewer fund accounts for the provision of water and sewer services to some parts of the County not serviced by others.

Parking Facilities Fund The Parking Facilities fund accounts for the fees and operations of parking facilities near County offices that serve County employees and the general public.

Internal service funds account for the financing of services provided by one agency to other agencies of the government on a cost-reimbursement basis. The County has an internal service fund to account for employee benefits and one for telecommunication charges to other funds.

Fiduciary Funds Fiduciary fund reporting uses the accrual basis of accounting. Because of their custodial nature, fiduciary funds do not measure results of operations and do not have a measurement focus. The County uses agency funds to account for assets held in a purely custodial capacity as fiscal agent for other entities and for various taxes, stateshared revenues, and fines and forfeitures collected on behalf of and distributed to other local governments. Agency fund transactions typically involve only the receipt, temporary investment and distribution of these resources.

Note 1 – Summary of Significant Accounting Policies (Continued)

C. Cash, Cash Equivalents and Investments

Cash resources of the majority of individual funds are combined to form a pool of cash and investments managed by the County Treasurer. Interest earned on investments is accrued as earned. Under existing Ohio law, all investment earnings are assigned to the General Fund unless contractually required to be credited to a specific fund. Distribution is made utilizing a formula based on the average monthly balance of cash and cash equivalents of all funds. Interest revenue credited to the General Fund during the year amounted to \$10,074,000 which includes \$8,203,000 assigned from other County funds.

For reporting purposes, "Equity with County Treasurer" is defined as cash on hand, demand deposits and investments held in the County treasury. "Cash, cash equivalents and investments in segregated accounts" is defined as cash, deposits and investments not held in the treasury. "Restricted cash" is defined as cash, deposits and investments held either in the treasury or in an outside account, and which is separate from the County's assets (e.g., customer deposits or unclaimed moneys).

For cash flow reporting purposes, the County's proprietary funds consider cash and cash equivalents to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. "Equity with County Treasurer" is considered to be cash and cash equivalents since these assets are available on demand.

Investments held by the Treasurer are stated at fair value using quoted market prices, except for repurchase agreements that are reported at cost. Net unrealized gains and losses calculated through the aggregate method are recorded as investment income. By statute, the Treasurer invests any short-term cash surplus. The residual investments are included in "Equity with County Treasurer." STAR Ohio is an investment pool that allows governments within the state to pool their funds for investment purposes. STAR Ohio is managed by the State Treasurer's Office and is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2015. Note 4 provides details regarding cash, cash equivalents and investments held by the County.

Investments held by the component units are considered available for sale and are stated at fair value. The component units use the specific identification cost method when calculating realized gains and losses on sales of investments.

D. Loans Receivable

"Loans receivable" consists of long-term revolving loans for housing and community development projects. The programs are primarily funded by a federal block grant, with a local match from the County. "Loans receivable" is offset by a credit to "Unearned revenue." The expenditure is recorded when the loan is made. The loans for which there is some doubt of collection are not included in the receivable.

Note 1 – Summary of Significant Accounting Policies (Continued)

E. Inventories

Inventories consist of expendable supplies held for consumption. Inventories are valued at cost using the first in/first out (FIFO) method and recorded as expenditures/expenses when used rather than when purchased.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2015, are recorded as prepaid items in both the government-wide and fund financial statements. The consumption method is used, recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

G. Capital Assets

Capital assets are those assets not specifically related to activities reported in the proprietary funds and generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market value as of the date received. For assets other than infrastructure, the County maintains a capitalization threshold of \$5,000 (amount not rounded), an estimated life of five or more years and a salvage value equal to 10 percent of the original cost for certain assets. The County's infrastructure consists of roads, bridges, water lines and sewer lines, with a capitalization threshold of \$100,000. The costs of improvements and major renovations that extend the asset's useful life are capitalized. Interest incurred during the construction of assets utilized by the enterprise funds is also capitalized. Normal maintenance and repair costs that do not add to the value of the asset nor materially extend an asset's life are not capitalized.

Capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure have been estimated based on the County's historical records of necessary improvements and replacement. Capital assets are shown net of accumulated depreciation. Depreciation and amortization of capitalized interest are computed using the straight-line method over the following estimated useful lives:

| Buildings | 30-50 years |
|-------------------------|-------------|
| Building improvements | 10-25 years |
| Roads and bridges | 37-50 years |
| Sewer and water lines | 20-70 years |
| Machinery and equipment | 5-20 years |

Note 1 – Summary of Significant Accounting Policies (Continued)

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunding debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 14.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include property taxes, pension, and unavailable revenue. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position explained in Note 14.

I. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

J. Interfund Balances

Activity between funds that represents lending/borrowing arrangements outstanding, and unpaid interfund services at the end of the fiscal year are referred to as "Due to/from other funds" or "Advances to/from other funds." Interfund receivables and payables within governmental activities and within business-type activities have been eliminated in the government-wide statement of net position; any residual outstanding between the governmental activities and business-type activities are reported as "Internal balances."

Note 1 – Summary of Significant Accounting Policies (Continued)

K. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported on the government-wide statement of net position, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

Bonds payable are reported net of the applicable bond premium or discount. Debt issuance costs, except any portion related to prepaid insurance costs, are recognized as an expense in the period incurred.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in full from current financial resources are reported as obligations of the funds. However, claims and judgements, compensated absences and net pension liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, loans and capital leases are recognized as liabilities on the fund financial statements when due.

L. Self-insurance

The Commissioners have formed the Franklin County Cooperative Health Benefits Program (the Program) to provide multiple employee health care benefit plans. Approximately 5,000 County employees and 1,300 employees of other political subdivisions are covered by the Program. Premiums are established based on an independent actuarial evaluation, and are designed to be sufficient to cover all incurred claims and build a reserve for this joint self-insurance arrangement. If the reserve is insufficient at any point in time to cover catastrophic losses, the losses will be covered by the County's General Fund with adjustments made to future premium rates. The County is the predominant participant, and activities related to the Program are reported in the Employee Benefits internal service fund. The County has recorded a liability at year-end in the Employee Benefits fund for pending claims and incurred but unreported claims.

Beginning in 2012 the County began to self-insure its workers' compensation costs. Charges are established based on an independent actuarial evaluation, and are designed to be sufficient to cover all incurred claims and maintain a reserve for this self-insurance arrangement. If the reserve is insufficient at any point in time to cover claims, the claims will be covered by the County's General Fund with adjustments made to future charge rates. The County is the only participant and activities related to the program are reported in the Employee Benefits internal service fund.

The County maintains comprehensive insurance coverage with private carriers for real property, building contents and vehicles in a maximum amount of \$500 million (blanket limit) with a \$100,000 deductible clause. In addition, the County self-insures its general liability coverage, except for medical malpractice insurance for the Sheriff's Inmate Medical Care Program, which covers the doctors, nurses, and the County's various liability with respect thereto. The commercial coverage for this medical malpractice insurance has a \$1 million per occurrence limit with a \$3 million per year aggregate limit and a \$6 million maximum policy limit.

Note 1 – Summary of Significant Accounting Policies (Continued)

M. Compensated Absences

The County permits employees to accumulate earned but unused vacation and sick leave benefits. Vacation benefits are accrued as a liability in the government-wide and proprietary fund financial statements when the benefits are earned if (1) the vacation leave is related to services already rendered and (2) it is probable that the employee will be compensated through time off or some other means in a future period. Sick leave benefits are accrued in the government-wide and proprietary fund financial statements using the vesting method. The sick leave liability is based on accumulated sick leave and employee wage rates at December 31st for those employees who are currently eligible to receive termination benefits and those the County has identified as probable of receiving payment in the future. A liability for compensated absences is recorded in governmental funds only if they have matured, for example as a result of employee resignation or retirement.

The criteria for determining vacation and sick leave liabilities are based on Commissioners' policies for compensated absences. The policies set by negotiated agreements and by other appointing authorities may vary slightly. Vacation and sick leave are accumulated based on hours worked. Vacation pay is fully vested after one year of full-time service. By Ohio law, accumulated vacation cannot exceed three times the annual accumulation rate for an employee. There is no limit for the accumulation of sick leave.

Employees with eight to eighteen years of service at time of separation or retirement receive payment for one-fourth of their accumulated sick leave. Employees with eighteen or more years of service receive payment for one-half of their accumulated sick leave. All payments are made at the employee's current wage rate.

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Note 1 – Summary of Significant Accounting Policies (Continued)

Enabling legislation authorizes the County to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the County can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Board of County Commissioners. Those committed amounts cannot be used for any other purpose unless the Board of County Commissioners removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board of County Commissioners, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. The Board of County Commissioners may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of County Commissioners. Unlike commitments, assignments generally only exist temporarily and additional action does not normally have to be taken for the removal of an assignment.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Note 1 – Summary of Significant Accounting Policies (Continued)

O. Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors or grantors, or laws or regulations of other governments. Restricted resources are applied when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for water and sewer services and for use of the parking facilities. Operating expenses are necessary costs incurred to provide the services that are the primary activities of the fund. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Q. Capital Contributions

Capital contributions are made from the federal, state, and other participating local governments to the governmental funds for construction projects. For business-type activities, capital contributions arise from contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

R. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

S. Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2 - Changes in Accounting Principles and Restatement of Net Position

For 2015, the County implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68." GASB 68 established standards for measuring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported December 31, 2014:

| | vernmental Activities | Business-Type Activities | | |
|--|--------------------------|-----------------------------|---------|--|
| Net position December 31, 2014 | \$ 1,342,380 | \$ | 35,151 | |
| Adjustments: | | | | |
| OPERS | | | | |
| Net pension liability | (285,121) | | (1,187) | |
| Deferred outflow - Payments subsequent to measurement date | 35,677 | | 147 | |
| STRS | | | | |
| Net pension liability | (22,438) | | | |
| Deferred inflow - Net difference in investment earnings | (4,151) | | | |
| Deferred outflow - Payments subsequent to measurement date | 600 | | | |
| Deferred outflow - Net difference in experience | 216 | | | |
| Restated net position December 31, 2014 | \$ 1,067,163 | \$ | 34,111 | |

| | E | nterprise Funds | 3 | Internal |
|--|--------------------|-----------------------|-----------|------------------|
| | Water and Sewer | Parking Facilities | Total | Service Funds |
| Net position December 31, 2014 | \$ 24,906 | \$ 10,245 | \$ 35,151 | \$ 17,346 |
| Adjustments: OPERS | | | | |
| Net pension liability | (734) | (453) | (1,187) | (694) |
| Deferred outflow - Payments subsequent to measurement date | 91 | 56 | 147 | 87 |
| Restated net position December 31, 2014 | \$ 24,263 | \$ 9,848 | \$ 34,111 | \$ 16,739 |

For OPERS, other than employer contributions subsequent to the measurement date, the County made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

Note 2 – Changes in Accounting Principles and Restatement of Net Position (Continued)

Other pronouncements (listed below) have been issued by the GASB. The County intends to adopt these pronouncements at the required time. The County has not determined the effect that adoption of these statements will have on its financial statements.

- GASB Statement No. 72, Fair Value Measurement and Application effective for financial statements for periods beginning after June 15, 2015.
- GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68 effective for financial statements for periods beginning after June 15, 2016.
- GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans effective for financial statements for periods beginning after June 15, 2016.
- GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions effective for financial statements for periods beginning after June 15, 2017.
- GASB Statement No. 77, *Tax Abatement Disclosures* effective for financial statements for periods beginning after December 15, 2015.
- GASB Statement No. 78, *Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans* effective for financial statements for periods beginning after December 15, 2015.
- GASB Statement No. 79, *Certain External Investment Pools and Pool Participants* effective for financial statements for periods beginning after June 15, 2015.
- GASB Statement No. 80, Blending Requirements for Certain Component Units An Amendment of GASB Statement No. 14 effective for financial statements for periods beginning after June 15, 2016.
- GASB Statement No. 81, *Irrevocable Split-Interest Agreements* effective for financial statements for periods beginning after December 15, 2016.
- GASB Statement No. 82, *Pension Issues An Amendment of GASB Statements No. 67, No. 68 and No. 73 –* effective for financial statements for periods beginning after June 15, 2016.

Note 3 – Budgetary Information and Compliance

In accordance with Ohio law, annual budgets are adopted for the General Fund, special revenue funds, debt service funds, capital projects funds, and proprietary funds. The Franklin County Budget Commission, composed of the Auditor, Treasurer and Prosecutor, approves tax budgets and certificates of estimated resources for the County itself and for schools, municipalities, townships and other agencies that are funded by tax dollars. The certificate of estimated resources issued by the Budget Commission states the projected revenue of each fund and establishes a limit on the amount the County may appropriate. The County's total contemplated expenditures from any fund during the fiscal year cannot exceed the amount available as stated in the certificate of estimated resources. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. During the year, as actual revenues vary from the estimates, the certificate may be amended further if an estimate needs either to be increased or decreased. Such amendments were made during 2015. The amounts reported as the original budget reflect the amounts in the amended certificate of estimated resources in place on the date the operating budget is adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during 2015.

Note 3 – Budgetary Information and Compliance (Continued)

The appropriations resolution is the Commissioners' authorization to spend resources. The resolution sets annual limits on expenditures plus encumbrances at the major object level within a fund, thereby establishing the legal level of control. The Commissioners passed the 2015 appropriation resolution on December 16, 2014. Revisions to the original budget require a resolution signed by at least two Commissioners. Supplemental appropriations were made during 2015. Under Ohio law, budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. At the end of the year, all encumbrances are canceled and all appropriations lapse, reverting to the respective funds from which they were appropriated.

Two nonmajor governmental funds had negative fund balances on the GAAP basis (Homeland Security and Justice Programs, \$1,205,000 and Dog and Kennel, \$379,000). The deficit was due to the timing of intergovernmental revenue and temporary financing through loans from the General Fund.

The County reports financial position, results of operations and changes in fund balance based on GAAP. State law also requires the County to account for transactions on a non-GAAP budgetary basis of cash receipts, cash disbursements and encumbrances. The major differences between the non-GAAP budgetary basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Borrowing arrangements between funds are treated as revenues and expenditures (budget) as opposed to increases and decreases in assets and liabilities (GAAP).

The statement of revenues, expenditures and changes in fund balances – budget and actual (non-GAAP budgetary basis) is presented in the basic financial statements for the General Fund and major special revenue funds. Adjustments necessary to reconcile the results of operations at the end of the year between the GAAP basis and the non-GAAP budgetary basis are as follows:

| | Net Cha | ange in Fund | d Bala | ance (Defic | it) | | | |
|---------------------------|-----------|--------------|--------|-------------|------|---------|----|---------|
| G | eneral ar | nd Major Sp | ecial | Revenue F | unds | | | |

| Non-GAAP budgetary basis | \$ | 16,820 | \$ | 1.671 | \$ | 739 | \$ | (4.291) |

Note 4 – Cash, Deposits and Investments

Moneys held by the County are classified by state statute into two categories. Active moneys are public moneys determined to be necessary to meet current demand upon the County treasury. Active moneys must be maintained either as cash in the County treasury, in commercial accounts payable or able to be withdrawn on demand, or in money market deposit accounts. Moneys held by the County that are not considered active are classified as inactive. Inactive moneys are invested in authorized securities in accordance with the Franklin County Treasurer Investment and Depository Policy, as adopted by majority vote of the Investment Advisory Committee.

A. Primary Government

Deposits: Deposits include amounts held in demand accounts and savings accounts. At year-end, the carrying amount of the County's deposits was \$51,934,000. The bank balances totaled \$57,424,000.

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned. Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by letter of credit deposited with the County Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution. Of the bank balances totaling \$57,424,000, \$2,349,000 was insured by FDIC. The remaining balance of \$55,075,000 was collateralized with securities held in single financial institution collateral pools in the name of the respective depository bank, and pledged as a pool of collateral against all the public moneys it holds. All County demand deposits were either insured or collateralized, in accordance with state law and the County's investment policy. The County has no deposit policy for custodial credit risk beyond the requirements of state statute.

Investments: The following securities are authorized investments under both the County's policy and the ORC:

- 1. United States Treasury notes, bills, bonds, or other obligation or security issued by the Treasury, any other obligation guaranteed as to principal and interest by the U. S., or any book entry, zero-coupon security that is a direct obligation of the United States.
- 2. Bonds, notes, debentures, or any other obligations or securities issued directly by any federal government agency or instrumentality.
- 3. Bonds and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County and the investments shall not exceed five percent of the County's total average portfolio.
- 4. The State Treasurer's investment pool (STAR Ohio).

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 4 – Cash, Deposits and Investments (Continued)

- 5. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that the investments are made only through eligible institutions and the investments shall not exceed fifty percent of the County's total average portfolio.
- 6. Up to fifteen percent of the County's total average portfolio in high-grade notes issued by U. S. corporations, and the notes mature no later than two years after purchase.
- 7. Up to twenty-five percent of the County's total average portfolio in either of the following:
 - a. High grade commercial paper when the aggregate value of the notes does not exceed ten percent of the aggregate value of the outstanding commercial paper of the issuing corporation, and the notes mature no later than 270 days after purchase.
 - b. Bankers acceptances of banks insured by the FDIC when the obligations are eligible for purchase by the Federal Reserve System and mature no later than 180 days after purchase.
- 8. High-grade debt interests issued by foreign nations diplomatically recognized by the U.S. government. All interest and principal shall be denominated and payable in U.S. funds. In the aggregate, this investment shall not exceed one percent of a two-year rolling average of the County's portfolio, and shall mature no later than five years after purchase.
- 9. Written repurchase agreements in the securities described in (1) or (2) provided that the market value of the agreement be at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days.

Investments in derivative securities, reverse repurchase agreements and collateralized mortgage obligations are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and purchases on margin or short sale are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific County obligation or debt.

Note 4 – Cash, Deposits and Investments (Continued)

As of December 31, 2015, the primary government had the following investments (based on quoted market prices) and maturities:

| | | Less | | | % of |
|------------------------|------------|------------|------------|------------|-----------|
| Investment Type | Fair Value | than 1 | 1 – 2 | 2 – 5 | Portfolio |
| U.S. Treasuries | \$ 36,084 | \$ 4,996 | \$ 17,893 | \$ 13,195 | 3.75% |
| FHLB notes | 254,257 | 26,986 | 201,813 | 25,458 | 26.42% |
| FHLMC notes | 197,200 | 5,491 | 161,719 | 29,990 | 20.49% |
| FNMA notes | 236,547 | 25,484 | 178,188 | 32,875 | 24.58% |
| FFCB notes | 166,340 | 29,020 | 109,102 | 28,218 | 17.28% |
| Federal bonds | 8,460 | - | 1,998 | 6,462 | 0.88% |
| Foreign bonds | 9,000 | 2,000 | 7,000 | - | 0.94% |
| County municipal bonds | 41,327 | 18,956 | 22,371 | - | 4.29% |
| Commercial paper | 7,753 | 7,753 | _ | - | 0.81% |
| STAR Ohio | 5,149 | 5,149 | - | - | 0.53% |
| Money markets | 370 | 370 | <u>-</u> _ | <u>-</u> _ | 0.03% |
| Total investments | \$ 962,487 | \$ 126,205 | \$ 700,084 | \$ 136,198 | 100.00% |

Interest rate risk: The ORC and the Investment and Depository Policy of the County limit the purchase of securities to those with a maturity of no more than five years from the date of purchase unless matched to a specific obligation or debt of the County.

Credit risk: The ORC limits investments in commercial paper, corporate bonds, municipal bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations at the time of purchase. All federal agency notes had a rating of AAA from Standard & Poor's, and Aaa from Moody's. All municipal bonds had a rating of AAA from Standard & Poor's, and Aa2 from Moody's. The ORC limits investments in foreign bonds to the top three ratings issued by nationally recognized statistical rating organizations at the time of purchase. The State of Israel Bonds were rated A by Standard & Poor's, and Aa by Moody's. Standard & Poor's has assigned STAR Ohio an AAAm money market rating. The County had investments in two other money market accounts at year-end, each rated AAAm by Standard & Poor's and Aaa by Moody's.

Concentration of credit risk: The County's investment policy provides for diversification to avoid undue concentration in securities of one type or securities of one financial institution. This restriction does not apply to obligations guaranteed by the U.S. government. The investment policy allows for a maximum of 1.0 percent of the County's total investments to be invested in foreign government debt. Of the County's total investments, 26.42 percent are FHLB notes, 20.49 percent are FHLMC notes, 24.58 percent are FNMA notes and 17.28 percent are FFCB notes. All other investment types are less than ten percent of the County's total investments.

Custodial credit risk: For an investment, the custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the County will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. In order to mitigate custodial risk, the County purchases its investments only through an approved broker/dealer or institution. Further, payment for investments is made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Note 4 – Cash, Deposits and Investments (Continued)

B. Component Units

Deposits: All monies are deposited into banks or investment companies designated by each component unit's governing board. Funds not needed for immediate expenditure may be deposited in interest bearing or non-interest bearing accounts, or U.S. government obligations. Security shall be furnished for all deposits, whether interest bearing or non-interest bearing, except that no such security is required for U.S. government obligations.

Custodial risk is the risk that, in the event of bank failure, the deposits of the component unit might not be recovered. At December 31, 2015, discretely presented component units held demand deposits with a carrying value of \$4,108,000. The bank balances totaled \$4,157,000. All bank balances, with the exception of \$2,646,000, were insured by FDIC.

Investments: As of December 31, 2015, the component units had the following investments (based on quoted market prices) and maturities (where applicable):

| | | | I | Less | % of | |
|------------------------|------|-------------------|----|-------------------|---------|-----------|
| Investment Type | Fair | Fair Value than 1 | | Fair Value than 1 | | Portfolio |
| Corporate bonds | \$ | 3,577 | \$ | 3,577 | 38.27% | |
| Managed equity account | | 2,063 | | 2,063 | 22.07% | |
| Mutual funds | | 2,875 | | 2,875 | 30.75% | |
| Money markets | | 23 | | 23 | 0.24% | |
| Cash surrender value | | | | | | |
| of life insurance | | 811 | | 811 | 8.67% | |
| Total investments | \$ | 9,349 | \$ | 9,349 | 100.00% | |

Interest rate risk: The component units do not have policies limiting investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates, except for ARC Industries, which limits fixed income securities to maturity of fifteen years.

Credit risk: ARC Industries limits investments so that average rating is between B and AAA based on the type of investment. No other component units place a limit on the ratings of their securities other than the ORC requirements. ARC Industries bond mutual funds have quality ratings of AAA to B as rated by Standard & Poor's, and money markets have an A+ rating.

Concentration of credit risk: The component units do not place a limit on the amount that may be invested in any one issuer.

Custodial credit risk: For an investment, the custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the component unit will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. In order to mitigate custodial risk, the component units purchase their investments only through an approved broker/dealer or institution.

Note 4 – Cash, Deposits and Investments (Continued)

C. Reconciliation to Statement of Net Position

The deposits and investments reconcile to the statements of net position as follows:

| | Primary Government | | nponent Jnits | Total | |
|--|-----------------------|-----------|------------------|-------|-----------|
| Deposits and investments: | | | | | |
| Carrying amount of deposits | \$ | 47,431 | \$ 4,108 | \$ | 51,539 |
| Fair value of investments | | 962,487 | 9,349 | | 971,836 |
| Total deposits and investments | \$ | 1,009,918 | \$ 13,457 | \$ | 1,023,375 |
| Per statement of net position: | | | | | |
| Equity with County Treasurer | \$ | 874,156 | \$ - | \$ | 874,156 |
| Cash and investments | | | | | |
| in segregated accounts | | 4,349 | 13,457 | | 17,806 |
| Restricted cash | | 2,280 | | | 2,280 |
| | | 880,785 | 13,457 | | 894,242 |
| Per statement of fiduciary net position: | | | | | |
| Equity with County Treasurer | | 106,914 | - | | 106,914 |
| Cash and investments | | | | | |
| in segregated accounts | | 22,219 | | | 22,219 |
| | | 129,133 | _ | | 129,133 |
| Total per statements of net position | \$ | 1,009,918 | \$ 13,457 | \$ | 1,023,375 |

Note 5 – Interfund Balances and Transfers

Interfund balances consisted of the following:

A. Due to/from Other Funds

These balances resulted primarily from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

| Receivable Fund | Payable Fund | Amount | | |
|-----------------------------|-------------------------------------|--------|-------|--|
| General | Board of Developmental Disabilities | \$ | 8 | |
| | Children Services Board | | 260 | |
| | Nonmajor governmental funds | | 560 | |
| | Enterprise funds | | 5 | |
| | Internal service fund | | 7 | |
| | | | 840 | |
| Children Services Board | Nonmajor governmental funds | | 21 | |
| Nonmajor governmental funds | General Fund | | 113 | |
| | Children Services Board | | 30 | |
| | Nonmajor governmental funds | | 116 | |
| | | | 259 | |
| Internal service fund | General Fund | | 10 | |
| | Nonmajor governmental funds | | 3 | |
| | <i>3 E</i> | | 13 | |
| | | \$ | 1.133 | |

B. Advances to/from Other Funds

The following loans between funds, in anticipation of grant revenue, are long-term in nature and are classified as advances. The amounts payable to the General Fund relate to working capital loans made to several nonmajor governmental funds. The advances at December 31, 2015 are as follows:

| | (Amounts in 000's) | | |
|-----------------|--|----|--------------|
| Receivable Fund | Payable Fund | Aı | nount |
| General | Nonmajor governmental funds Internal service fund | \$ | 2,860 250 |
| | | \$ | 3,110 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 5 – Interfund Balances and Transfers (Continued)

C. Interfund Transfers

Transfers are used to move revenues from the fund that collects them in accordance with statute or budget to the fund that is required to expend them in accordance with statute or budget; to segregate money for anticipated capital projects; to provide resources for current operations; or to service debt.

| | (Amounts in 000's) | | | | | | | | |
|-----------------------------|--------------------|----|------------|----------|-----|---------|-------|--------|--|
| | | | | Transfer | in | | | | |
| | | | No | nmajor | | | | | |
| | | | | | | | | | |
| Transfer Out | General | | eral Funds | | Ent | erprise | Total | | |
| General | \$ | _ | \$ | 82,776 | \$ | 2,645 | \$ | 85,42 | |
| Nonmajor governmental funds | | 41 | | 1,514 | | - | | 1,555 | |
| Total | \$ | 41 | \$ | 84,290 | \$ | 2,645 | \$ | 86,976 | |

D. Due from/to Component Unit

The following balances occurred between the primary government and component unit due to services provided, reimbursable expenditures and short term loans:

| Payable Fund | (Amounts in 000's) Receivable Component Unit | e | | | |
|--------------|--|----|---|--|--|
| FCBDD | ARC Industries | \$ | 2 | | |

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 6 – Property Taxes

Property taxes are levied against all real and public utility property in Franklin County.

Real property taxes for 2015 are levied after October 1, 2015. The lien date is as of January 1, 2015. The tax is based on the assessed value of the property and is established by state law at thirty-five percent of the appraised value. Real property taxes for 2014 are collected in 2015 and are intended to finance 2015 expenditures. The total assessed value upon which the 2015 real estate tax collection was based was \$25,570,751,000. The full tax rate for the 2015 collection applied to real property for all County units was \$17.72 per \$1,000 of assessed valuation.

Public utility real property is subject to tax. The total assessed value upon which the 2015 tax collection was based was \$787,932,000.

The County Treasurer bills and collects property taxes on behalf of all taxing districts within Franklin County. The Auditor periodically remits to the taxing districts their portion of the taxes collected. Collection of the taxes and remittance to the taxing districts are accounted for in various County agency funds.

"Property taxes receivable" represents delinquent real property, tangible personal property, and public utility taxes outstanding as of the last settlement, and current real property and public utility taxes that were measurable at year-end for which there is an enforceable legal claim. In the fund financial statements, receivables are offset by deferred inflows of resources since these taxes were not levied to finance 2015 operations. In the full accrual government-wide financial statements, collectible delinquent property taxes have been recorded as revenue while the remainder of the receivable is a deferred inflow of resources.

The County uses actual billings to estimate taxes receivable by using an estimate based on the tax rate multiplied by property value. The collection of substantially all real property and public utility taxes both current and delinquent is reasonably assured because of the County's ability to force foreclosure of the properties on which the taxes are levied. For tangible personal property taxes, a determination of the percentage deemed collectible was made based on past experience. This percentage was applied against the gross taxes receivable to yield the estimated net realizable value of these resources.

Note 7 – Notes Receivable

In 1997, the County and the Solid Waste Authority of Central Ohio (SWACO) entered into a repayment agreement under which SWACO is obligated to pay the debt service for bonds issued to finance expansion at the solid waste facility. To secure SWACO's obligation, contract documents were executed and delivered to the County whereby SWACO granted the County a lien on the solid waste facilities, a security interest in its fixtures and personal property, and assignment of permits and licenses necessary for operation of the solid waste facilities. At December 31, 2015, the County recorded \$3,030,000 as a note receivable for the landfill expansion bonds with a similar assignment of fund balance in the Debt Service fund.

In 2009, the County authorized an interest free economic development loan to the Central Ohio Community Improvement Corporation (Central Ohio CIC) in the amount of \$200,000 and to the Community Improvement Corporation of Gahanna (Gahanna CIC) for \$2,600,000. At December 31, 2015, the County recorded a note receivable in the amount of \$79,000 and \$2,321,000 respectively, with a similar commitment of the fund balance in the General Fund.

The following is a summary of the future payments to be received by the County for the notes:

| | (Amounts | 111 000 8) | | Other | , | Total |
|------------------------------------|----------|------------|------------|----------|-----|----------|
| | | | Gov | ermental | Gov | ermental |
| | Ge | General | | Funds | I | Funds |
| 2016 | \$ | 100 | \$ | 1,626 | \$ | 1,726 |
| 2017 | | 100 | | 1,633 | | 1,733 |
| 2018 | | 100 | | _ | | 100 |
| 2019 | | 100 | | - | | 100 |
| 2020 | | 100 | | - | | 100 |
| 2021-2025 | | 500 | | - | | 500 |
| 2026-2030 | | 472 | | - | | 472 |
| 2031-2035 | | 464 | | _ | | 464 |
| 2036-2040 | | 464 | | _ | | 464 |
| Total payments to be received | | 2,400 | ' <u>-</u> | 3,259 | | 5,659 |
| Less: Amount representing interest | | | | (229) | | (229) |
| Notes receivable | \$ | 2,400 | \$ | 3,030 | \$ | 5,430 |

Note 8 – Leases - Lessor Disclosure

A. Capital Leases

The County acts as lessor in two outstanding direct financing lease agreements. The facilities under lease, the lessees and debt principal outstanding at December 31, 2015, include the following:

| | (Amounts in 000's) | | |
|---------------------|--------------------------------------|-------|--------|
| | | Prin | icipal |
| Facility | Lessee | Outst | anding |
| Fairgrounds Project | Franklin County Agricultural Society | \$ | 300 |
| Maryhaven Facility | Maryhaven, Inc. | | 662 |
| | | \$ | 962 |

Under the agreements, the lessees are required to pay the cost of maintaining and operating the leased facility. Lease payments from Maryhaven are substantially equal to the debt service to be paid by the County for retirement of the bonds associated with those facilities. The payments from Maryhaven are recognized as revenue in the Debt Service fund prior to payment of interest and principal on bonds.

The County has recognized the future minimum lease payments, less unearned interest income to be received for capitalized leases, as "Leases receivable" in the General and Debt Service funds. That portion not collected at year-end is classified as "Deferred inflows of resources - Unavailable revenue."

A summary of the future minimum lease payments to be received by the County, and the components of the net investment in direct financing leases at December 31, 2015, follows:

| | grounds oject | yhaven cility | Т | Total |
|--------------------------|----------------------|------------------|----|-------|
| 2016 | \$ 50 | \$ 364 | \$ | 414 |
| 2017 | 50 | 337 | | 387 |
| 2018 | 50 | - | | 50 |
| 2019 | 50 | - | | 50 |
| 2020 | 50 | - | | 50 |
| 2021 | 50 | - | | 50 |
| Minimum lease payments | 300 | 701 | | 1,001 |
| Unearned interest income | <u> </u> | (39) | | (39) |
| Net investment in leases | \$ 300 | \$ 662 | \$ | 962 |

Note 8 – Lessor Disclosure (Continued)

B. Operating Leases

During 2009, the County completed construction on Huntington Park, which has been leased to the Stadium and Team, a component unit of the County. The lease was initiated in April 2009 and expires December 2033. The terms of the lease agreement require the Stadium and Team to pay for operating expenses and leasehold improvements of the stadium. In addition, the Stadium and Team shall pay, as rent, an amount equal to the debt service of the financing package issued under the County's name for the construction of Huntington Park. Minimum annual rent may vary between years as a result of the anticipated debt service payments, and is subject to change as a portion of the financing consists of bond anticipation notes. The asset is recorded as a capital asset of the County as follows:

| s) | |
|----|----------------|
| \$ | 64,114 |
| | (6,729) |
| \$ | 57,385 |
| | \$ \$ \$ |

The Stadium and Team may renew the lease for two consecutive ten year terms under similar terms upon thirty days written notice prior to the end of the lease term. Future payments under the non-cancellable operating lease are as follows:

For bonds, interest rates vary over the term of the bond per a set schedule and none are demand bonds.

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 10 – Long-term Liabilities (Continued)

B. New Issues

March, 2015 Stadium Facility Project (\$4,000,000) In March 2015, the County issued Series 2015 Taxable Special Obligation Notes in the amount of \$4,000,000 with an interest rate of 1.0% (maturing March 3, 2016) for the purpose of refunding outstanding notes previously issued for the purpose of providing funds to pay a portion of the costs of acquiring, constructing, installing and equipping a county park and recreational facility including a baseball stadium.

April, 2015 Ohio Water Development Authority Loan (\$654,000) In April 2015, the County entered into a loan agreement with the Ohio Water Development Authority for the Darbydale Wastewater Upgrade project. The term of the loan is five (5) years with an interest rate of 0.0%.

April, 2015 Ohio Water Development Authority Loan (\$400,000) In April 2015, the County entered into a loan agreement with the Ohio Water Development Authority for the District 4 Valve Replacement project. The term of the loan is five (5) years with an interest rate of 1.53%.

May, 2015 Refunding (\$68,190,000) In May 2015, the County issued Series 2015 General Obligation Limited Tax Refunding Bonds in the amount of \$68,190,000 with interest rates ranging from 3.25% to 5.0% (maturing December 2031) to currently refund a portion of the County's outstanding general obligation bonds. A premium in the amount of \$10,963,000 was received on the refunding bonds. The reacquisition price exceeded the net carrying amount of the old debt by \$7,366,000 which has been accounted for as a deferred refunding charge. The transaction resulted in an economic gain of \$5,664,000 and a reduction of \$2,950,000.

May, 2015 Ohio Water Development Authority Loan (\$951,000) In May 2015, the County entered into a loan agreement with the Ohio Water Development Authority for the Eureka Park Sanitary Sewer Line project. The term of the loan is twenty (20) years with an interest rate of 2.26%.

C. Changes in Long-term Liabilities

Primary Government Changes in governmental activity long-term obligations during the year, including new issuances, consisted of the following:

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 10 – Long-term Liabilities (Continued)

Component Units The component units have no bonded debt. At December 31, 2015, long-term liabilities consisted of \$828,000 in compensated absences, \$8,852,000 in unearned revenue and \$322,000 in capital leases.

D. Future Debt Service Requirements

The following is a summary of the County's estimated future annual debt service requirements:

| | | | | | | ental Activi | | | | | | |

E. Funds Used to Retire Long-term Liabilities

All general obligation bonds are supported by the full faith and credit of the County. General obligation bonds will be paid with \$249,920,000 from taxes, lease revenues (Note 8) and user charges and payments received on the SWACO and CRAA loans including portions of the Series 2005 Refunding (Note 7). Compensated absences liabilities will be paid from the fund from which the employee's salary is paid. Typically the General Fund and the Board of Developmental Disabilities Fund have been used in prior years to liquidate the liability for compensated absences. Capital lease obligations will be paid from the fund that supports the department using the underlying asset, also typical of past treatment.

The taxable special obligations (the "Stadium Facility Bonds" and the "Stadium Facility Note") in the amount of \$27,165,000 are not general obligations of the County, but are payable solely from the proceeds derived from the operation, lease, sale, or other disposition of a County park and recreation facility, including a baseball stadium and from the following non-tax revenue sources that are deposited in the County's General Fund: (i) fines and forfeitures, (ii) fees imposed from licenses and permits, (iii) investment earning on any fund or account of the County, including the County's General Fund, that are credited to the County's General Fund, (iv) proceeds from the sale of capital assets, (v) charges for services, and (vi) other revenues, including but not limited to, rental income, gifts and donations and payments received as reimbursement (the "Pledged Revenues"). Annual principal and interest payments on the special obligations are expected to require less than 11.5 percent of the pledged revenues within the County's General Fund. Other than the retirement of notes described in Note 10.B., there were principal payments of \$815,000 in 2015. Interest charges amounted to \$1,373,000, while pledged revenue amounted to \$66,725,000. The County has covenanted to appropriate each year a sufficient amount of the Pledged Revenues to pay the debt service required in such year.

Note 10 – Long-term Liabilities (Continued)

From the original proceeds of the Stadium Facility Bonds and Notes, \$4,100,000 was deposited in the Stadium Debt Service fund to be applied to the payment of interest during the construction phase of the project. As of December 31, 2015, the fund balance of the Stadium Debt Service fund is \$387,000. In addition, the Commissioners have designated \$3,644,000 of the fund balance in the General Fund to secure the pledge for the payment of the debt service on the special obligations from the County's Pledged Revenues.

The taxable special obligation loans are not general obligations of the County. Debt service payments on governmental activities loans are made from the Motor Vehicle and Gasoline Tax Fund (a nonmajor governmental fund) and debt service payments on business-type activities loans are made from the Water and Sewer Fund.

F. Debt Limitations

The ORC provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors should not exceed one percent of the total assessed valuation of the County. The ORC further provides that the total voted and unvoted net debt of the County less the same exempt debt should not exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000. The effects of the debt limitations at December 31, 2015, are an overall debt margin of \$437,096,000 and an unvoted debt margin of \$38,959,000.

G. Defeased Bonds

In 1993, the County defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At December 31, 2015, \$31,445,000 remained outstanding on the defeased bonds from the 1993 refunding.

H. Optional Redemption

Certain bonds issued by the County are subject to redemption at the County's option. When partial redemption of any of the following bonds is authorized, the bond registrar will select bonds or portions thereof by lot within a maturity in such manner as the bond registrar may determine, provided, however, that the portion of any bond so selected will be in the amount of \$5,000 or an integral multiple thereof. In each case, accrued interest will be paid to the date fixed for redemption. The following schedule summarizes the bond issues subject to optional redemption, the relevant maturity dates, the redemption dates and the redemption rates:

Note 10 – Long-term Liabilities (Continued)

| Bonds | Maturity Date | Redemption Dates (Dates Inclusive) | Redemption Prices |
|--------------------------------------|------------------------|------------------------------------|----------------------|
| Series 2005 Refunding | after 12/01/2015 | 12/01/2015 and thereafter | 100% |
| Series 2007 Courthouse Project | after 12/01/2018 | 12/01/2017 and thereafter | 100% |

| Series 2010 Various Purpose | on or after 12/01/2020 | 06/01/2020 and thereafter | 100% |
| Series 2010-2 Various Purpose | on or after 12/01/2021 | 12/01/2020 and thereafter | 100% |
| Series 2013 Various Purpose | after 12/01/2022 | 06/01/2023 and thereafter | 100% |
| Series 2014 Refunding | after 06/01/2023 | 12/01/2023 and thereafter | 100% |
| Series 2015 Refunding | after 12/01/2026 | 12/01/2025 and thereafter | 100% |

Note 11 – Leases - Lessee Disclosure

A. Capital Leases

Primary Government

The County leases buildings and various equipment through lease arrangements. Some of the lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Payments are made from the funds that purchase the assets. The assets acquired through capital leases are as follows:

| (Amounts in 000's) | | |
|-------------------------------|----|----------|
| , , | F | rimary |
| | Go | vernment |
| Buildings and improvements | \$ | 23,798 |
| Machinery and equipment | | 1,941 |
| Less accumulated depreciation | | (4,859) |
| | \$ | 20,880 |

Note 11 – Leases - Lessee Disclosure (Continued)

The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2015, were as follows:

| (Amounts in 000's) | | |
|-----------------------------------|----|----------|
| | F | rimary |
| | Go | vernment |
| 2016 | \$ | 2,185 |
| 2017 | | 2,408 |
| 2018 | | 2,171 |
| 2019 | | 2,144 |
| 2020 | | 2,131 |
| 2021-2025 | | 10,615 |
| 2026-2030 | | 10,615 |
| 2031 | | 1,415 |
| Total minimum lease payments | | 33,684 |
| Less amount representing interest | | (10,847) |
| Present value of minimum lease | \$ | 22,837 |
| | | |

B. Operating Leases

The County has entered into various contracts and leases for equipment, land and office space. The following table represents the non-cancellable rental liabilities:

| | R | ental |
|-----------|----|-------|
| 2016 | \$ | 2,008 |
| 2017 | | 1,680 |
| 2018 | | 1,469 |
| 2019 | | 1,345 |
| 2020 | | 412 |
| 2021-2025 | | 1,372 |
| 2026-2028 | | 376 |
| | \$ | 8,662 |

The County does not have operating leases or contracts after 2028. During 2015, the County incurred expenditures of \$4,004,000 for non-cancellable operating leases.

Note 12 – Contingencies and Commitments

A. Contingent Liabilities

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. At December 31, 2015, the audits of certain programs had not been completed. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County believes such disallowances, if any, will be immaterial.

Several claims and lawsuits are pending against the County. The Prosecuting Attorney has used his best judgment as legal counsel for the County to estimate the possible liability that the County could incur. \$262,000 has been accrued to offset expected liability arising from the current pending lawsuits.

By resolution, the Commissioners have designated amounts in the fund balance of the General Fund to be used for expenditures in future years. The Commissioners set aside \$30,000,000 for "rainy day" purposes. In addition, the Commissioners have committed \$3,644,000 to secure the pledge for the payment of debt service on the Stadium Facility Bonds and Note.

B. Commitments

The County had several outstanding capital projects as of December 31, 2015, including software development projects and various construction projects. The projects include the following major commitments:

| | | S | pent to | Commitment | | |
|------------------------------------|--------------|----|---------|------------|---------|--|
| Project | Phase | | Date | Rei | maining | |
| Hall of Justice improvements | Construction | \$ | 44,434 | \$ | 235 | |
| Sheriff Training Academy | Construction | | 5,048 | | 17 | |
| Road and bridge projects | Construction | | 16,559 | | 11,078 | |
| Software development | Development | | 1,767 | | 344 | |
| Board of Election facility | Construction | | 7,116 | | 2,991 | |
| Network Infrastructure | Construction | | 4,609 | | 5,131 | |
| Scioto Peninsula Redevelopment | Construction | | 5,810 | | 6,420 | |
| Public Safety Center | Construction | | 2,556 | | 197,444 | |
| Clean Ohio Grant - Dublin Road | Construction | | 2,300 | | 700 | |
| Fire alarm replacement | Construction | | 13 | | 549 | |
| Judicial Services Self Help Center | Construction | | 136 | | 27 | |
| Hague Avenue expansion project | Construction | | 191 | | 61 | |
| Juvenile Detention camera upgrade | Construction | | 568 | | 193 | |

Note 13 – Risk Management

The County is exposed to various risks of loss related to torts and general liability; theft of, damage to and destruction of assets; natural disasters; errors and omissions; health care claims for employees and their eligible dependents; and injuries to employees. Insurance policies are procured for commercial crime, flood, buildings and contents, equipment, boilers and machinery. In addition, a Commercial Crime and Public Employees Dishonesty policy is in effect for certain agencies that deal with large amounts of cash, and a Faithful Performance Blanket bond is in place for all County employees. Medical malpractice insurance is purchased for claims involving inmate medical care. Settled claims have not exceeded commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year. The County has elected to retain risk for losses related to torts, general and excess liability, and automobile casualty rather than insuring those risks through a third-party. Employee health care claims are self-insured, with purchased stop-loss coverage of \$1,000,000 per individual for the calendar year. The County purchases workers' compensation insurance from the State of Ohio to cover employees and auxiliary staff.

A. Self-insurance for General Liability

The County's General Fund provides unlimited coverage for court judgments resulting from tort and general liability claims of County officials and employees. The County does not use actuaries to determine possible claims liability, nor are any interfund premiums charged. However, the County incorporates nonincremental claims adjustments when setting the annual budget amount for claims, judgments and settlements. The Commissioners appropriated \$500,000 within the General Fund in 2015 to satisfy court-ordered judgments, self-insured claims or other settlements. The actual claims paid during 2015 totaled \$332,000. It is estimated that \$262,000 claims and judgments will be due within one year, while \$1,269,000 of the General Fund's fund balance has been committed for unasserted claims.

B. Self-insurance for Health Benefits

The County provides multiple health care benefit plans that cover approximately 5,000 County employees. Approximately 1,300 employees of other political subdivisions are also in the County's insurance program. Coverage is extended to eligible dependents. Costs are allocated to the fund that pays the salary of the enrolled employee. These payments are accounted for as expenditures in the paying funds and as fees and charges for services in the Employee Benefits internal service fund from which the claims are paid. An estimate of amounts to be paid for claims incurred but not reported (IBNR) as of year-end has been developed by the County in conjunction with an actuary, based on appropriate standards of practice promulgated by the Actuarial Standards Board. At December 31, 2015, accounts payable balances included \$2,489,000 of reported, unpaid County claims and \$6,114,000 as an estimate for IBNR. Actual claims experience may differ from the estimate. Given the nature of health benefits, the County predicts that the entire liability will be paid within one year. As such, the entire claims liability is a current liability.

The Comprehensive Omnibus Budget Reconciliation Act of 1986 requires the County to offer terminated or retired employees continued participation in the County's employee health care benefits program, provided that the employees pay the rate established by the plan administrator.

Note 13 – Risk Management (Continued)

C. Workers' Compensation

Prior to 2012, the County solely reimbursed the Ohio Bureau of Workers' Compensation for the cost of injured workers' claims. All County agencies participate in the program and make payments for prior and current year claims. Because the plan is retrospectively rated, payments will be made in future periods for injuries sustained during 2012 and prior years. Beginning in 2012 the County began to self-insure its workers' compensation costs. Charges are established based on an independent actuarial evaluation, and are designed to be sufficient to cover all incurred claims and maintain a reserve for this self-insurance arrangement. If the reserve is insufficient at any point in time to cover claims, the claims will be covered by the County's General Fund with adjustments made to future charge rates. The County is the only participant and activities related to the program are reported in the Employee Benefits internal service fund. At December 31, 2015, the long-term liability for Workers' Compensation claims was estimated to be \$3,848,000, a net decrease of \$1,113,000 from the estimate as of December 31, 2014. The County has committed \$6,310,000 of the General Fund's fund balance for these future payments.

D. Summary

When it is probable that a loss has occurred and the amount of the loss can be reasonably estimated, the liability is reported in the fund. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors. Accordingly, claims liabilities are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors. The estimate of the claims liabilities includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Liabilities also include an amount for estimated IBNR claims. Changes in claims liabilities for the various plans during 2014 and 2015 were as follows:

| | (Am | ounts in (| 00's) | | | | |
|------------------------------------|-----|------------|-------|----------|-----|-----------|--------------|
| | Ge | neral |] | Health | W | orkers' | |

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 13 – Risk Management (Continued)

The County analyzes all outstanding and potential claims that have arisen or could arise due to the occurrence of a loss contingency on or before December 31, 2015. Those claims that are judged to have a high probability of requiring a settlement and for which the amount required to settle the claim is reasonably estimable are shown as liabilities. Those claims for which the liability cannot be reasonably estimated or which are judged not to have a high probability of settlement are not displayed as liabilities on the balance sheet, but are discussed in Note 12.

This space intentionally left blank

Note 14 – Defined Benefit Pension Plans

A. Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the County's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within thirty years. If the amortization period exceeds thirty years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

B. Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description – County employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (i.e. County employees) may elect the member-directed plan or the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

Note 14 – Defined Benefit Pension Plans (Continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A

Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Formula

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Public Safety

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 52 with 15 years of service credit

Public Safety and Law Enforcement

Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Group B

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Formula

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Public Safety

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Public Safety and Law Enforcement

Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Group C

Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Public Safety

Age and Service Requirements:

Age 52 with 25 years of service credit or Age 56 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 56 with 15 years of service credit

Public Safety and Law Enforcement

Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Note 14 – Defined Benefit Pension Plans (Continued)

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for twelve months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.0 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.0 percent.

Funding Policy – the Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | State and Local | Public Safety | Law Enforcement |
|---|-----------------|------------------|--------------------|
| 2015 Statutory Maximum Contribution Rates | | _ | |
| Employer | 14.0% | 18.1% | 18.1% |
| Employee | 10.0% | * | ** |
| 2015 Actual Contribution Rates | | | |
| Employer: | | | |
| Pension | 12.0% | 16.1% | 16.1% |
| Post-employment health care benefits | 2.0% | 2.0% | 2.0% |
| Total Employer | 14.0% | 18.1% | 18.1% |
| Employee | 10.0% | 12.0% | 13.0% |

- * This rate is determined by OPERS' Board and has no maximum rate established by ORC.
- ** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2.0 percent greater that the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required contribution was \$36,870,000 for 2015. Of this amount \$3,702,000 is reported as an intergovernmental payable.

Note 14 – Defined Benefit Pension Plans (Continued)

C. Plan Description - State Teachers Retirement System (STRS)

Plan Description – County licensed teachers participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, Ohio 43215-3771, by calling 888-227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by 2.0 percent of the original base benefit. For members retiring August 1, 2013, or later, the first 2.0 percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age sixty with five years of qualifying service credit, or age fifty-five with twenty-five years of service, or thirty years of service regardless of age. Age and service requirements will increase effective August 1, 2015, and will continue to increase periodically until they reach age sixty with thirty-five years of service or age sixty-five with five years of service on August 1, 2016.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14.0 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14.0 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age sixty with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

Note 14 – Defined Benefit Pension Plans (Continued)

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased 1.0 percent July 1, 2014, and will be increased by 1.0 percent each year until it reaches 14.0 percent on July 1, 2016. For the year ended December 31, 2015, plan members were required to contribute 12.0 percent of their annual covered salary. The County was required to contribute 14.0 percent; the entire 14.0 percent was the portion used to fund pension obligations. The 2015 contribution rates were equal to the statutory maximum rates.

The County's contractually required contribution to STRS was \$1,265,000 for 2015. None of this amount is reported as an intergovernmental payable.

D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. STRS' net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's portion of the net pension liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

| (A | mounts in 000' | s) | | | <u> </u> |
|--|----------------|--------|------|---------|---------------|
| | OPE | RS | S | TRS | Total |
| Proportionate share of the net pension liability | \$ 2 | 92,924 | \$ | 25,494 | \$ 318,418 |
| Proportion of the net pension liability | 2.4286 | 5826% | 0.09 | 224655% | |
| Pension expense | \$ | 40,030 | \$ | 1,072 | \$ 41,102 |

Note 14 – Defined Benefit Pension Plans (Continued)

At December 31, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | O | PERS | S | TRS | , | Total |
|--|----|--------|----|-------|----|--------|
| Deferred Outflows of Resources | | | | | | |
| Net difference between projected and actual earnings | | | | | | |
| on pension plan investments | \$ | 15,630 | \$ | 2,442 | \$ | 18,072 |
| County contributions subsequent to the | | | | | | |
| measurement date | | 36,870 | | 575 | | 37,445 |
| Total deferred outflows of resources | \$ | 52,500 | \$ | 3,017 | \$ | 55,517 |
| Deferred Inflows of Resources | | | | | | |
| Differences between expected and actual experience | \$ | 5,146 | \$ | 3.113 | \$ | 8.259 |

Of the amount reported as deferred outflows of resources, \$37,445,000 related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| | (<i>A</i> | Amounts in | 000's) | | | |
|--------------------------|------------|------------|--------|-------|----|-------|
| | O | PERS | S | TRS | T | Γotal |
| Year ending December 31: | , | | | | | |
| 2016 | \$ | 2,621 | \$ | (414) | \$ | 2,207 |
| 2017 | | 2,621 | | (414) | | 2,207 |
| 2018 | | 2,621 | | (413) | | 2,208 |
| 2019 | | 2,621 | | 570 | | 3,191 |
| Total | \$ | 10,484 | \$ | (671) | \$ | 9,813 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 14 – Defined Benefit Pension Plans (Continued)

E. Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation
Future Salary Increases, including inflation
COLA or Ad Hoc COLA
Investment Rate of Return
Actuarial Cost Method

3.75 percent
4.25 to 10.05 percent including wage inflation
3 percent, simple
8 percent
Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

Note 14 – Defined Benefit Pension Plans (Continued)

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

| | | Weighted Average |
|------------------------|------------|---------------------|
| | | Long-Term Expected |
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Arithmetic) |
| Fixed Income | 23.00 % | 2.31 % |
| Domestic Equities | 19.90 | 5.84 |
| Real Estate | 10.00 | 4.25 |
| Private Equity | 10.00 | 9.25 |
| International Equities | 19.10 | 7.40 |
| Other investments | 18.00 | 4.59 |
| Total | 100.00 % | 5.28 % |

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 8.0 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7.0 percent) or one-percentage-point higher (9.0 percent) than the current rate:

| | (Amounts in (| 000's) | | | | | |
|---|---|---------|----|---------|----|--------|--|
| | Current 1% Decrease Discount Rate 1% Increa (7.00%) (8.00%) (9.00%) | | | | | | |
| County's proportionate share of the net pension liability | \$ | 538,895 | \$ | 292,924 | \$ | 85,756 | |

Note 14 – Defined Benefit Pension Plans (Continued)

F. Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75 percent

Projected salary increases
Investment Rate of Return
Cost-of-Living Adjustments
(COLA) 2.75 percent at age 70 to 12.25 percent at age 20
7.75 percent, net of investment expenses
2 percent simple applied as follows: for members retiring before
August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and not set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

| Asset Class | TargetAllocation | Long-Term Expected Real Rate of Return |
|----------------------|------------------|---|
| | | |
| Domestic Equity | 31.00 % | 8.00 % |
| International Equity | 26.00 | 7.85 |
| Alternatives | 14.00 | 8.00 |
| Fixed Income | 18.00 | 3.75 |
| Real Estate | 10.00 | 6.75 |
| Liquidity Reserves | 1.00 | 3.00 |
| Total | 100.00 % | |

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 14 – Defined Benefit Pension Plans (Continued)

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

| | (Amounts in | 000's) | | | | |
|---|---|--------|----|--------|----|--------|
| | Current 1% Decrease Discount Rate 1% Increa (6.75%) (7.75%) (8.75%) | | | | | |
| County's proportionate share of the net pension liability | \$ | 35,413 | \$ | 25,494 | \$ | 17,106 |

Note 15 – Postemployment Benefits

A. Ohio Public Employees Retirement System

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans (see Note 14.A.): the Traditional Pension Plan – a cost sharing, multi-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multi-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains two cost-sharing multiple-employer defined benefit post-employment health care trusts, which fund multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursements, to qualifying benefit recipients of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage.

In order to qualify for health care coverage, age and service retirees under the Traditional Pension and Combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code (ORC) permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided in ORC Chapter 145.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml#CAFR or by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642.

The ORC provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2015, local government employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the ORC. Active member contributions do not fund health care.

Note 15 – Postemployment Benefits (Continued)

OPERS maintains three health care trusts. The two cost-sharing, multiple-employer trusts, the 401(h) Health Care Trust and the 115 Health Care Trust, work together to provide health care funding to eligible retires of the Traditional Pension and Combined plans. The third trust is a Voluntary Employee's Beneficiary Association (VEBA) that provides funding for a Retiree Medical Account for Member-Directed Plan members. Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Plan and Combined Plan was 2.0 percent during calendar year 2015. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2016 remained at 2.0 percent for both plans. The OPERS Board of Trustees is also authorized to establish rules for the retiree, or their surviving beneficiaries, to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited to the VEBA for participants in the Member-Directed Plan for 2015 was 4.5 percent.

The County's actual contributions for 2015, 2014, and 2013, used to fund health care, were approximately \$6,150,000. \$6,417,000 and \$3,058,000, respectively. Actual contributions represent 100 percent of required contributions.

B. State Teachers Retirement System of Ohio

STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan; a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit and the Defined Contribution Plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums.

Pursuant to ORC Chapter 3307, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent Comprehensive Annual Financial Report by visiting www.strsoh.org.

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14.0 percent employer contribution rate, 0.0 percent of covered payroll was allocated to post-employment health care for the year ended June 30, 2015. For the years ended June 30, 2014, and 2013, 1.0 percent of covered payroll was allocated to post-employment health care. The 14.0 percent employer contribution rate is the maximum rate established under Ohio law. The County's actual contributions for 2015, 2014, and 2013, used to fund health care were approximately \$-0-, \$47,000 and \$96,000, respectively.

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 16 – Conduit Debt Obligations

From time to time, the County has issued Hospital, Housing and Industrial Revenue Bonds to provide financial assistance to private sector entities for the acquisition and construction of facilities deemed to be in the public interest. The bonds are secured by the financed property and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the facility transfers to the private-sector entity served by the bond issuance. The County is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2015, there were 145 series of bonds outstanding. The aggregate principal amount payable of these series was \$3,149,191,000.

Note 17 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented on the below.

| | G | eneral | FCBDD | | Children Services Board | | Services | | ADAMH Board | | | | | Other vernmental Funds | | Total ernmental Funds |

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 19 – Joint Ventures

Franklin County and the City of Columbus (the City) participate in the following three joint ventures.

Columbus/Franklin County Affordable Housing Trust Corporation (AHT) The AHT is a nonprofit corporation created in 2000 to promote home ownership and affordable rental housing opportunities in the County and City. The AHT Board is appointed jointly by the Franklin County Board of Commissioners and the Mayor of the City of Columbus, and receives annual support from the County and City, including \$3,010,000 from the County in 2015. AHT will receive annual funding from the County as long as the current agreement continues. Complete financial statements may be obtained from AHT at 110 North 17th Street, Columbus, Ohio 43203.

Franklin Park Conservatory Joint Recreation District (Conservatory District) The Conservatory District was created in 1990 pursuant to the authority contained in ORC Section 755.14 (B), and is dedicated to the promotion of environmental appreciation and ecological awareness. There is an ongoing financial responsibility on the part of the County and the City, whereby both the County and the City provide annual operating subsidies. The County provided \$525,000 in 2015. Complete financial statements can be obtained from Franklin Park Conservatory Joint Recreation District, 1777 East Broad Street, Columbus, Ohio 43203.

Columbus-Franklin County Finance Port Authority (Finance Authority) The Finance Authority was created in 2006 pursuant to the authority contained in ORC Sections 4582.21 through 4582.59, to serve economic development needs. The County and City have committed to provide subsidies to the Finance Authority. The County provided an annual operating subsidy of \$100,000 in 2015. Audited financial statements for the Finance Authority may be obtained from The Columbus-Franklin County Finance Authority, 350 East First Avenue, Suite 120, Columbus, Ohio 43201.

Note 19 – Joint Ventures (Continued)

A summary of the financial position for the AHT, the Conservatory District and the Finance Authority follows:

| | | Cor | servatory | F | inance | |

| Unrestricted | 5,137 | | 2,845 | | 2,715 | |
| Total net position | \$ 45,176 | \$ | 22,017 | \$ | 7,632 | |

Note 20 – Related Organizations and Other Agreements

Housing of City Prisoners Under the terms of an agreement between the County and the City of Columbus, the County provides housing and medical treatment to persons incarcerated under City ordinances. For this service, the City has agreed to pay its proportionate share of the jail's costs. During 2015, the General Fund realized revenue of \$3,679,000 under this agreement.

Central Ohio Workforce Investment Corporation The Franklin County Department of Job and Family Services (FCDJFS) provides workforce development services for the Central Ohio Workforce Investment Corporation (COWIC) established pursuant to the Workforce Investment Act of 1998. A board of directors separate from FCDJFS heads the COWIC.

Columbus Metropolitan Library The Commissioners are responsible for a majority of the board appointments for the Columbus Metropolitan Library. The County has no further accountability or oversight for the library's operation.

Columbus Metropolitan Housing Authority The County and the City of Columbus jointly formed the Columbus Metropolitan Housing Authority (CMHA). CMHA is a separate body from the City and the County, with no oversight or accountability by the County for CMHA's management or operations.

Note 20 – Related Organizations and Other Agreements (Continued)

Columbus and Franklin County Metropolitan Park District The Columbus and Franklin County Metropolitan Park District (Metro Parks) was organized under ORC Chapter 1545. Metro Parks is a separate political subdivision and is governed by a three-member Board of Park Commissioners, appointed in a non-authoritative manner by the Franklin County Probate Judge. The Board of Park Commissioners adopts the annual budget. Metro Parks' operations are autonomous.

Franklin County Family and Children First Council The operation of the Franklin County Family and Children First Council is controlled by an oversight committee. The chair of the County Commissioners serves on the committee. The Franklin County Educational Service Center is the administrative and fiscal agent for the Council.

Franklin County Convention Facilities Authority The Commissioners appoint a majority of the board members of the Franklin County Convention Facilities Authority (CFA) but have no further accountability for it. The CFA is a separate and distinct legal entity. Neither the County nor the City of Columbus is responsible for the operation of CFA or of the Greater Columbus Convention Center (Convention Center).

The CFA issued lease revenue bonds in 1990 to finance the construction of the Convention Center. Several bond issues have been completed since that date through which tax and lease revenue anticipation bonds were used to refund and refinance portions of the original and subsequent issues, and to finance further construction and renovations. In 2010, the CFA issued \$160 million lease revenue anticipation bonds to finance a full-service convention center hotel. In 2011, the CFA issued \$16 million in parking garage improvement bonds to finance the expansion of the Vine Street parking facility. In 2012, the CFA issued \$42.5 million of tax and lease revenue anticipation refunding bonds for the purpose of refunding outstanding 2002 bonds to achieve interest cost savings. Also, in 2012, the CFA issued \$10 million first lien arena lease revenue bonds to finance a portion of the purchase of Nationwide Arena and \$44.2 million second lien arena lease revenue bonds to finance a portion of the purchase of Nationwide Arena and to finance other capital and operating activities. In 2014, the Authority issued \$18 million in parking garage improvement revenue bonds to finance the expansion of a parking facility near the Convention Center. Also in 2014 the Authority issued \$160,140,000 of tax and lease revenue anticipation and refunding bonds of which \$125,105,000 represented new money for convention center renovations and expansion and \$35,035,000 represented refunding bonds. Additionally, the Authority signed closing documents in 2014 for the issuance of \$56,150,000 of tax and lease revenue anticipation refunding bonds to be dated and delivered in 2015. The proceeds of the \$56,150,000 bonds provided for payment on the 2005 bonds, which were called on December 1, 2015. As a result, the liability for those bonds was removed from the bonds payable balance. The total amount of these revenue bonds outstanding as of December 31, 2015, was \$501,759,000 net of premiums and discounts of \$23,300,000 or a gross amount of \$525,059,000.

Note 20 – Related Organizations and Other Agreements (Continued)

For the bond issues prior to 2010, the bond issues and the facility were made possible through a lease/sub-lease agreement whereby the County and the City lease the facility from CFA and concurrently sub-lease it back to CFA. The lease rent charged by CFA equals the annual debt service amount, with each party paying an amount equal to one half the amount of the debt service on the revenue bonds. The sub-lease rent charged by the County and the City also equals the annual debt service amount, and is expected to be paid from hotel/motel tax revenues. The County, at its discretion and without incurring any penalty or further liability, may cancel the lease by not appropriating funds for the lease payment. The terms of the agreement provide many alternative plans for payment of the debt service in the event that the hotel/motel tax revenues prove insufficient. The County considers it highly unlikely that it will ever be faced with meeting CFA's debt service. The Convention Center Lease special revenue fund records the lease and sub-lease payments made and received by the County.

In conjunction with the 2010 bond issue, the CFA has agreed to lease the project to the County and the County has agreed to sublease the project back to the CFA. The lease requires the County to pay rent to the CFA equal to the aggregate principal and interest required to be paid on the Series 2010 bonds. Under the sublease, the CFA has agreed to make rental payments to the County for the same amount.

In December 2011, the County authorized the execution and delivery of a lease and a sub-lease agreement with the CFA and the City for the purpose of financing the purchase of Nationwide Arena and future improvements thereto and to approve loan agreements with the State of Ohio, and the issuance of Arena Lease Revenue Anticipation Bonds by CFA for such purposes. Pursuant to the lease, the County will make a rental payment in an amount equal to a percentage of the revenue it receives from the casino tax collected by the State and distributed to the County. The percentage of casino tax receipts to be paid as rent is as flows:

| Year | Percentage |
|---------------------|------------|
| 2016 | 26% |
| 2017 | 27% |
| 2018 | 28% |
| 2019 | 29% |
| 2020 | 30% |
| 2021 | 31% |
| 2022 and thereafter | 32% |

Central Ohio Community Improvement Corporation The Commissioners are responsible for the appointments of two of the seven trustees for the Central Ohio Community Improvement Corporation; the Treasurer makes one appointment. The County has no further accountability for this organization.

Friends of the Shelter Friends of the Shelter is a not-for-profit organization with a self-appointing board. Money raised by Friends of the Shelter supports various programs at the Franklin County Animal Shelter. The amount of funding is immaterial to the Dog and Kennel special revenue fund. The County is not financially accountable for the organization, nor does the County approve the organization's budget.

Notes to the Basic Financial Statements For the Year Ended December 31, 2015

Note 21 – Subsequent Events

On April 26, 2016, the County authorized the redemption of the outstanding Various Purpose Limited Tax General Obligation Bonds, Series 2005, dated October 26, 2005 (the "Series 2005 Bonds").

On May 24, 2016 the decision was announced in State ex rel,. Altman-Bates v. Pub. Emps. Retirement Bd., 2016-Ohio-3100 by the Ohio Supreme Court mandating service credit in the Ohio Public Employees Retirement System for up to 254 current and former employees of the non-profit Franklin County Public Defender Office (FCPDO) that were hired between January 1, 1985 through October 1992. This litigation began in February 2001, when fifty-one claimants (Public Defender employees hired between 1985 and 1998) filed with the Public Employees Retirement Board (PERB) for service credit for their service between 1985 and 1998. PERB denied their request, stating these employees were collaterally estopped from maintaining their argument, as other decisions issued the by the 10th District Court of Appeals and the Ohio Supreme Court had already determined they were not public employees. A mandamus action was filed, which was ultimately considered by the Ohio Supreme Court in State ex rel. Davis v. Pub. Emps. Retirement Bd., 120 Ohio St.3d 386, 2008-Ohio-6254. In Davis, the Court held that the claimants were entitled to a full consideration of their claim on the merits. This matter then proceeded with a reduced number of claimants (only four). PERB denied the claimants service credit on the merits of their claims. The 10th District Court of Appeals affirmed the denial of service credit. However, the Supreme Court disagreed, and determined that all employees hired between 1985 and 1992 were entitled to service credit. Although the total liability of this ruling is not presently determinable, it is important to point out that since a significant percentage of the employees of the FCPDO were engaged in the municipal unit, the City of Columbus will bear some of the liability associated with these claims. Therefore, it is the opinion of the County's legal counsel that the resolution of this matter will not have a material adverse effect on the financial condition of the County.

Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

The special revenue funds are used to account for proceeds of specific revenue sources (other than debt service, capital projects, or enterprise funds) that are legally restricted to expenditures for specified purposes. A description of the nonmajor special revenue funds follows:

<u>Public Assistance</u> – This fund accounts for public assistance funding. Expenditures are restricted to provide job training and public assistance to qualified clients to pay their medical assistance providers and for certain public social services.

Motor Vehicle and Gasoline Tax – This fund accounts for revenue derived from taxes on gasoline and motor vehicle licenses. State law restricts expenditure of these funds to road and bridge maintenance and construction.

<u>Senior Services</u> – This fund accounts for the property taxes and grants spent for programs benefiting senior citizens.

Zoological Park – This fund accounts for the property taxes for the Columbus Zoo.

<u>Child Support Enforcement</u> – This fund accounts for the administration of the collection and distribution of voluntary and court-ordered child support payments.

<u>Real Estate Assessment</u> – This fund accounts for activities related to the appraisal of real property for tax purposes, and periodic county-wide revaluation. Funding is provided through charges to the various political subdivisions during the distribution of their property tax revenue.

Additional special revenue funds are listed below:

- Convention Center Lease
- Homeland Security and Justice Programs
- Economic Development and Planning
- Dog and Kennel
- Certificate of Title Administration (Budgetary only)
- Wireless Enhanced 9-1-1

- Domestic and Juvenile Court Grants
- Adult Probation and Community Corrections
- Emergency Management Agency
- Recorder Equipment (Budgetary only)
- Other Special Revenue Funds

Nonmajor Debt Service Funds

The debt service funds are used to account for the accumulation of governmental resources and payment of principal and interest on long-term debt. Debt service funds are as follows:

- General Bond Retirement
- Maryhaven Debt Service
- Stadium Debt Service

Nonmajor Capital Projects Funds

The capital projects funds are used to account for the financial resources used for the acquisition, construction or renovation of facilities (other than those financed by the enterprise funds). Following are descriptions of the nonmajor capital project funds:

<u>Energy Conservation Measures</u> – This fund accounts for costs associated with the installation or modification of an installation in, or remodeling of, an existing building, to reduce energy consumption.

<u>Clean Ohio Grant</u> – This fund accounts for the environmental remediation and redevelopment of a former landfill site.

<u>Criminal Justice Information System</u> – This fund accounts for costs associated with providing a case management system that will allow attorneys to file petitions and other documents electronically through the internet.

<u>Hall of Justice Improvements</u> – This fund accounts for improvements to the Franklin County Hall of Justice.

Whim's Ditch – This fund accounts for land acquisition and construction costs of Whim's Ditch.

<u>Sheriff Training Academy</u> – This fund accounts for costs associated with the design and construction of the Sheriff Training Academy facility.

<u>Board of Elections Facility</u> – This fund accounts for costs associated with the acquisition and improvements of a facility for the Board of Elections.

<u>Network Infrastructure</u> – This fund accounts for costs associated with capital expenditures for purchases and improvements to network related initiatives.

<u>Public Safety Center</u> – This fund accounts for costs associated with the design and construction of the Public Safety Center facility.

Other Capital Projects – This fund accounts for miscellaneous capital projects.

Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private business enterprise. The County intends that the cost of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. Following are descriptions of the enterprise funds:

<u>Water and Sewer</u> – This fund accounts for the provision of water and sewer services to a relatively small area of the County not serviced by other local water and sewer operations. All activities necessary to provide such services are accounted for in this fund.

<u>Parking Facilities</u> – This fund accounts for the fees and operations of the County-owned parking facilities. The facilities serve both County employees and the general public.

Since the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position and the Statement of Cash Flows for each of the enterprise funds are presented in the basic financial statements, they are not repeated in this section.

Internal Service Funds

The internal service funds report activities provided to the departments and agencies on a cost-reimbursement basis. The County has two internal service funds:

<u>Employee Benefits</u> – This fund accounts for the provision of medical, dental, optical, prescription, life and mental health insurance to departments and agencies.

 $\underline{\text{Telecommunications}}$ – This fund accounts for the provision of telecommunication services, primarily voicemail.

Fiduciary Funds

Agency Funds

Agency funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments, or other funds. A description of the agency funds follows:

<u>Undivided Taxes</u> – This fund includes the collection and distribution of property, motor vehicle, and estate taxes.

<u>Payroll and Benefit Revolving</u> – This fund accounts for the collection and distribution of the employer and employee shares of all payroll taxes and other withholdings.

Other Agency Funds – These funds account for the collection and distribution of local government taxes levied and collected by the State of Ohio. Also included are the collection and distribution of moneys held by County agencies in outside bank accounts, moneys held outside of the County treasury by the courts, and all funds that are not part of the County's reporting entity, but for whom the County serves as fiscal agent.

Component Units

Component units are legally separate organizations for which the County is financially accountable.

ARC Industries, Incorporated, of Franklin County, Ohio (ARC Industries) – ARC Industries is a sheltered, not-for-profit workshop that enters into contracts with the business community to provide workers for various manufacturing and service industry jobs.

<u>Veterans Memorial Hall</u> – Veterans Memorial Hall was built to commemorate the services of all members and veterans of the United States armed forces and to provide a center for veterans' meetings and programs.

<u>Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. (Stadium and Team)</u> – These two interrelated nonprofit corporations were organized under ORC Chapter 1702 to provide entertainment and recreation in the stadium for the benefit and general welfare of the County.

Statistical Section

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

| Contents | Tables |
|---|---------|
| Financial Trends These schedules contain trend information to help the reader understand how the County's financial position has changed over time. | 1 - 4 |
| Revenue Capacity These schedules contain information to help the reader understand and assess the factors' effect on the County's ability to generate its most significant local revenue sources, the property tax and the sales tax. | 5 - 13 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future. | 14 - 19 |
| Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments. | 20 - 21 |
| Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs. | 22 - 23 |
| Compliance Information This schedule provides the continuing disclosures required by Securities and Exchange Commission Rule 15c2-12. | 24 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 54 in 2011; related schedules present information beginning in the year of implementation.

Property Taxes on a \$100,000 Owner-Occupied Home or a Business City of Columbus / Columbus School District December 31, 2015

Real estate taxes help finance your school district, your city, village or township, your public library, your parks and zoo, and various County services. In the example below, if your home or business has an appraised value of \$100,000 located in the City of Columbus and the Columbus City School District for tax year 2015, this is how the taxes will be distributed in calendar year 2016.

| Tax Recipient | Home | Business |
|-------------------------------------|----------------|----------------|
| Columbus City Schools | \$ 1,559.44 | \$ 1,973.61 |
| Board of Developmental Disabilities | 244.33 | 245.00 |
| Children Services | 169.56 | 175.00 |
| City of Columbus | 109.90 | 109.90 |
| ADAMH Board | 76.79 | 77.00 |
| County General Fund | 51.45 | 51.45 |
| Columbus Public Library | 97.98 | 98.00 |
| Office on Aging | 45.38 | 45.50 |
| Zoological Park | 24.35 | 26.25 |
| Metro Parks | 26.18 | 26.25 |
| Total | \$ 2,405.36 | \$ 2,827.96 |

Notes: ¹Tax rates displayed are for tax years 2015 and 2006, to be collected in 2016 and 2007 respectively.

²While authority exists to collect this levy because the levy was voted as a continuing levy, the County has

opted to discontinue collection of this levy due to the passage of the 2008 FCBDD levy.

Other Major General Fund Revenue Sources

Last Ten Years (Amounts in 000's)

County sales tax:

The County imposed a one-half percent sales tax increase effective September 1, 1985, an additional permanent one-fourth percent effective October 1, 2005 and an additional permanent one-fourth percent effective January 1, 2014. A temporary one-fourth percent sales tax became effective October 1, 2005, and expired December 31, 2007. A temporary one-fourth percent sales tax became effective January 1, 2014 and expires December 31, 2018. The sales tax may be repealed if a majority of voters approve the repeal at a general election. The question of repeal must be placed on the ballot by a petition signed by qualified voters equal in number to 10% of those voting for governor in the last gubernatorial election. No such petition has been filed with the County Board of Elections.

Local Government fund:

The Ohio local government fund was created by statute and is comprised of designated state revenues, which are distributed to each county and then allocated among the county and cities, villages and townships in the county on the basis of statutory formulas.

The following table shows sales taxes and local government fund revenue for the County:

| | Local |
|------------|---|

Source: Debt schedules submitted by political subdivisions to the Franklin County Budget Commission and Settlement Division and the Ohio Municipal Advisory Council.

Note: 1 Some political subdivisions are not wholly located within the legal boundaries of Franklin County. For those entities, the amount applicable to Franklin County is determined by dividing the assessed valuation of the Franklin County portion of the subdivision by the total assessed valuation. 2015 tax year valuations were used. Major entities partially within Franklin County include the cities of Columbus, Dublin, Pickerington, Reynoldsburg, and Westerville.

²Direct debt of Franklin County includes the following: Governmental activities:

| General obligation bonds \$ 281,1 General obligation notes \$ 7,44 | |
|---|----|
| | 18 |
| 0 | 82 |
| Special obligation bonds 23,16 | 65 |

Source: Franklin County Auditor's Office.

Note: The County issued \$4,000,000 taxable special obligation notes in 2015 for the purpose of retiring previously issued notes used to pay a portion of the cost of acquiring, constructing, installing, and equipping a county park and recreation facility, including a baseball stadium. The special obligation bonds and notes do not represent general obligation debt or a pledge of the full faith and credit or taxing power of the County. The special obligations are payable solely from, and secured by, a pledge of project revenues and the above non-tax General Fund revenues of the County. As of December 31, 2015, \$23,165,000 of the bonds and \$4,000,000 of the notes remain outstanding.

¹ Does not include principal payments due to refinancing of bond anticipation notes.

¹ Increase in civil cases filed in 2006 reflects cases referred by Attorney General to assist them with a backlog.

² ADAMH board no longer managed the Medicaid program on the local level after 2012.

³ Job and Family Services "Career or Job Services is an estimated number due to the agency not being able to retrieve the information from COWIC

⁴ Number of adults treated is a new category for 2014

Securities and Exchange Commission Rule 15c2-12 Compliance Information As of December 31, 2015

On April 26, 2016, the County authorized the redemption of the outstanding Various Purpose Limited Tax General Obligation Bonds, Series 2005, dated October 26, 2005 (the "Series 2005 Bonds").

No obligations have been sold from December 31, 2015 to the date of this letter, June 29, 2016.

The following description of significant events is provided in compliance with the Rule for existing obligations outstanding at December 31, 2015.

- 1. There were no delinquencies of principal and/or interest payments.
- There were no non-payment related defaults.
- 3. There have been no modifications to rights of the holders of the County's obligations.
- 4. On May 13, 2015, the County issued Series 2015 Various Purpose Limited Tax Refunding Bonds in the amount of \$68,190,000 with interest rates ranging from 3.25% to 5.0% (maturing from December 2018 through December 2031).
- 5. There were no calls of the County's obligations outstanding during 2015, nor did the County defease any other bonds during 2015.
- 6. There were no rating changes during 2015. The County maintains the highest long-term bond rating given by both Moody's Investor Services (Aaa) and Standard & Poor's (AAA) for its general obligation debt.
- 7. There have been no adverse tax opinions or events affecting the tax-exempt status of any of the County's outstanding obligations.
- 8. There were no unscheduled draws on debt service reserves reflecting financial difficulties.
- 9. There were no unscheduled draws on credit enhancements reflecting financial difficulties.
- 10. There was no substitution of credit or liquidity providers, nor was there a failure to perform.
- 11. The County did not release, substitute or sell any property securing repayment of its obligations.
- 12. The County will continue to provide all necessary annual information by filing its Comprehensive Annual Financial Report with the Municipal Securities Rulemaking Board through the use of the MSRB's electronic portal "EMMA," short for Electronic Municipal Market Access.
