The Franklin County Auditor's Office is seeking a GIS Analyst to join the GIS team.

Who are we?

The Franklin County Auditor's Office is dedicated to serving the community by ensuring fairness and accuracy in weight and measures across the county. Our mission is to protect and empower consumers, making sure they receive what they rightfully pay for at gas pumps and retail store scanners. As a trusted steward of county finances, we strive to promote fiscal responsibility and innovative initiatives that benefit all residents of Franklin County.

In addition to these important responsibilities, we assess property values to determine fair property taxes, while also working to provide tax relief for senior and citizens who are disabled. We understand the importance of supporting vulnerable populations and strive to make the process as accessible and accommodating as possible.

We are committed to upholding state regulations by ensuring that our furry friends are licensed. As required by state law, we proudly license dogs, recognizing the significance of responsible pet ownership within our community.

At the Franklin County Auditor's Office, we value the diversity of our residents and businesses and strive to create an environment of fairness, inclusivity, and equity in all our endeavors.

What will you do?

Research and verify incoming and existing addresses; Enter assigned addresses into Auditor's database and countywide system; Develop and maintain contacts within local municipalities, address authorities, and other county offices and agencies to gather inputs for accurate address data.

Answers customer inquiries and creates/updates maps and data and reports for the general public, businesses, Auditor's Office, and other county-related requests; maintains good communications with customers and works to resolve issues in mapping, photography, and GIS data; Creates and maintains accurate records; Supports tasks for GIS users; understands and explains Franklin County GIS data and mapping.

Performs data analysis, maintenance, and conversion of spatial data utilizing GIS technology. Maintains and organizes files and data for and highly complex projects and tasks; Performs property-related research for Appraisal, Real Estate, and other divisions.

Implements quality controls for departmental data; Designs Geodatabases and other GIS file formats, creates, updates, and converts geospatial data for use with other county datasets.

Who should apply?

We encourage individuals with possession of a bachelor's degree from an accredited college or university in geography, engineering, planning, data sciences, GIS or related discipline; four (4) or more years of related experience and/or training or any combination of training, education, or experience which provides the desired knowledge, skills, and abilities to perform the essential functions of this position.

We believe in the power of diversity and inclusivity, and we want to create an exciting and equitable environment for all. You belong here, and we encourage you to apply today!
