Oakland Nursery in Dublin Wins April True Transactions Award

COLUMBUS, Ohio – Franklin County Auditor Michael Stinziano has awarded Oakland Nursery Dublin Garden Center the office’s True Transactions Award for the month of April.

The award, which was created by Stinziano last month, recognizes businesses around the county that have a perfect record of using accurate scales and scanners. The Auditor’s office Weights and Measures Department is responsible for ensuring retail scanners and scales in the county are accurate and inspects them twice annually.

“I congratulate Oakland for serving its customers so well. With spring in the air, Franklin County residents will be turning to Oakland to refresh their gardens and they’ll be getting what they pay for. That is the hallmark of a good business,” Stinziano said.

Oakland Nursery has served customers in Franklin County for decades and provides garden supplies, equipment, and landscaping services. It is the second business to win the True Transactions Award. Winners receive a framed certificate from Stinziano acknowledging the achievement.
